FARMERS
TRY THE
Star Bone Phosphate.
TO all agriculturists, therefore, who are in search of an active and permanent manure, and who may have the claims of this article presented to their notice for the first time, the manufacturers would suggest, that the
STAR BONE PHOSPHATE
is worthy of their experimental trial, at least; past experience warranting the fullest confidence, that after a trial they will add their testimony to that of hundreds of farmers who now regard it as the cheapest and best manure in the market.
THE AMMONIA
is supplied abundantly from the organic portion of the bone.
PRICE $55 PER TON IN BAGS.
Farmers wishing Ground Bone, Oil of Vitriol, can be supplied. Give us a call.

A Word to the Wise!
HIGHLY IMPORTANT TO FARMERS!
Renner's Chemical Fertilizer!
THE importance of a quick, active and durable Fertilizer, adapted to the soil of our county, is acknowledged by all Farmers. Having satisfied myself, after long study and careful experiment, that F. C. RENNER'S
Chemical Fertilizer
surpasses all others in adaptedness to all kinds of soil, I have purchased the right for Adams county, and am prepared to fill orders for it promptly and on reasonable terms. It is no humbug, but
HAS BEEN SUCCESSFULLY TRIED
by a number of our Farmers, and is admitted by all who have it to be the best in the market, and the cheapest. I am prepared to furnish this Fertilizer in any quantity, and will deliver
In any town or village in the County,
when ordered in not less quantity than a TON. I manufacture it for sale at $50 per ton without bags, or $55 in bags. This fertilizer is composed of the best fertilizing chemicals that can be had. I use no oil of vitriol; it does not contain any ammonia, therefore I do not use it. Neither do I use lime nor ashes.
THE OBJECT OF THE CHEMICAL FERTILIZER is to introduce a fertilizer that will last for a series of crops—not only for one. It contains sufficient animal matter to mature the grain and make it ripen early, while the ammonia forces the growth. I expect to manufacture large supply this winter for the spring crops, and therefore invite farmers and the public generally to give it a trial on all kinds of Grains and Vegetables.
CAUTION.—I hereby give notice that Farm Rights hereafter sold, unless signed by me, are infringements on my Right, and will be prosecuted and dealt with according to law, from which there is no appeal.
☞All orders will be promptly attended to by addressing

BROKEN THREADS.

As the shuttle swiftly flies
Back and forth before our eyes,
Blending with its fingers light
Warp and woof till they unite
In a fabric good and strong,
Let us hear the weaver's song.

Weaving ever, day by day,
As the shuttles briskly play,
Broken threads how oft annoy,
And our precious time employ;
Warning us, by sharp reproof,
We must watch the warp and woof!

Weaving in life's busy loom—
Mingling sunshine with the gloom—
Warp and woof of deeds we blend
Till life's fabric has an end:
Broken threads how oft we find
Burdening the noble mind!

Broken threads in life abound,
In each station they are found;
May Faith's kind and friendly hand
Help us to adjust the strand,
That, when life's last tide shall ebb,
There shall be a perfect web.

OLD-FASHIONED SERVANTS.

In those days, when the Boston stage office was in Elm street, girls with blooming cheeks came from the pine woods of Maine, the breezy hills of New Hampshire, and the green valleys of Vermont, to do housework in the city. They arrived by stage over Charlestown bridge, and beheld with wondering eyes the shipping in the harbor. Westward they saw the spires of Cambridge, while before them rose the city of Boston with its labyrinth of streets and lanes. Down through Union street galloped the horses, the people rushing to their doors and windows to witness the event of the day—the coming in of the stages—and refreshing their eyes with the sight of health and beauty.

The stage-coach, with six horses on the run, was the highest idea of progress. Society at that period moved at the rate of nine miles an hour. Farmers from all "Down East," from the Canada line, and from Berkshire Hills, came in midwinter to Boston market, and there was an annual throng of red sleighs around Faneuil Hall. In those days there was no lack of children in the land, and M. D.'s and D. D.'s did not feel constrained to write tracts and deliver lectures to the women of America upon the baby question. Farmers had daughters by the half score, who could spin, weave, knit, sew, milk, make butter and cheese, and who, by hard work from dawn to twilight, at the wheel and loom, could earn fifty cents a week.

Those who had a surplus of daughters were always on the lookout, when at market, for situations where a dollar a week and board could be earned by Jane and Mary; so when the girls came whirling into the city in the stage they knew where they were going, and what wages they were to receive, for it had all been settled by the prudent father.

Ah! there were capital chambermaids and cooks in those days, many of whom have bloomed into matrons during the lapse of years, and are now sitting in their parlors, vainly wishing that they could find girls as willing and capable to work for them as they had been for others, and sighing for those good old times when there was respect between employer and employed, when respect and confidence often ripened into friendship and affection.

But the times are not as they were, neither are the servants. The farmers' daughters have disappeared; we ne'er shall look upon their like again. The new servants have come; we never looked upon their like before.

The change from the old to the new was like the coming on of an eclipse—like the transition from light to darkness. We know when the obscuration began, and many a vexed housekeeper would like to know when it will end. It began in that year when three men went up from Boston, and lounged along the banks of the Merrimac, at Pawtucket Falls, pretending to be fishing, but in reality speculating how they might dam the river. Their brains were full of wheels, and their thoughts were spinning down the current of time. They bought the waterfall, dug a canal, erected a row of brick buildings, filled them with machinery, scoured the country, gathered up the farmers' girls, gave them a chance to earn $4 a week, and the result of it all is Lowell, Lawrence, Lewiston, and a score of manufacturing towns.

It is a mystery to know what becomes of all the pins, and equally a puzzle to know what has become of the farmers' daughters. They were in the factories, but nearly all of them have disappeared. Ireland is tending looms in mills as well as holding sway in our households.

"Do you know of any American girls doing housework in the city?"

I have put this question to several of my lady friends, and the invariable answer has been: "No; not one."

And yet there are some, as I have ascertained by inquiries at intelligence offices.—Of houseservants in cities, about one in a hundred are of American parentage. In the country and in suburban towns the percentage is larger; for the daughters of Cork and Killarney prefer the city to the country, while American girls, as a rule, are more willing to go where they can have fresh air, and where they will not be compelled to climb from basement to attic several times a day.—*Atlantic Monthly for June.*

HOW CAN WE ELEVATE OUR PUBLIC SCHOOLS?

Under the above head, Miss Maria L. Sanford, a teacher in Chester county, who was a candidate for County Superintendent of Common Schools, contributes an article of considerable length to the West Chester *Republican*, which is worthy of the attention not only of teachers and school directors, but of people of both sexes and all classes who desire the future well being of our country. We make the following interesting extracts:

We should seek for high scholarship in our teachers. It is said that they understand the branches required by law, but we should seek for far more. What would we not give to have spent the eight or ten years of our school life under the care of a teacher whose mind has been enlarged, elevated, purified by wide and thorough culture.—Place the child in charge of a teacher who is an ardent lover of natural science, who knows the voice, the name, the habits of bird and insect, who has read the record of of the rocks, the flowers, the stars, and with wonder and delight he opens his eyes upon a new world; he studies no longer dry forms, but the living handiwork is water to the thirsty soul. Give to the class an instructor whose mind is rich with historic lore, with the teachings of the past and the lessons of to-day; to whom Thucydides and the "old man eloquent" are not dead names, but living, breathing fellow-beings; let him have traversed the desert with Livingstone and climbed the mountains with Humboldt, felt the Artic frosts with Kane, and walked through Europe with Taylor, and, as with breathless interest they listen to his words, the gray old world becomes to them a marvellous romance, from whose delightful pages they will never turn to the vapid trash which now belittles the mind and corrupts the morals of such multitudes of our youth. Let the grammar of our noble English be illustrated by a mind not only stored with the beauties of our own grand classics, but familiar with the silent tongues from which ours has sprung, and the living languages which have given it richness and flexibility, and the "valley of dry bones" is breathed upon by the breath of life, and from the graves of dead names spring the host of living thought. Let the refining influence, the indescribable charm of high culture be enforced and sanctified by an abiding love of purity and truth, and in the heart of the child, narrow self-conceit will give place to the humility of wisdom; whatever is coarse and rude will hide itself for very shame, and all that is lovely be developed to adorn and bless his future life.—Inspired by such an example, he will pursue his studies with tireless ardor, not with the narrow conception that they are the sum of all wisdom, but because they will unlock the countless treasure beyond.

It is asked, almost in derision, if we can have *such* teachers in our common schools? Such, I answer, we *may* have in one and all. Not this year, nor this decade; the time is not yet. "The seeds of human progress are slow in ripening, and the generation that plants is not the generation which gathers in the harvest." It is for us to prepare the way; we must show the necessity, prove the possibility, awaken the hope, and create the demand for this great good, and then by slow and constant progress it may be attained. Fond parental care counts no cost when the suffering body pleads for relief, but the hungry soul makes no moan, and we see not, dream not of the heaven-born faculties dwarfed, palsied and dying by our neglect. It is for us to give voice to this silent suffering, to show how infinitely superior is the spiritual to the physical nature, and how much more imperative its wants, and then we may ask, nor ask in vain, for their relief.

Far more than we imagine does the school house form the character of the child. Not merely by the palpable effects of warmth, and light and pure air, which are often sadly neglected, but by a subtle influence almost universally ignored. How legitimate seem the unkind, fretful tones, and coarse, careless habits which are found in the barren abode of disorder and squalor; while from a home made beautiful by taste and elegance, goes forth a magic kindness which cheers even the transient visitor. And so in the school room, neatness and beauty will do more than the rod towards securing good order, and infinitely more toward the symmetrical development of the mind of the child. Orderly, careful habits may be first enforced, and then encouraged until they become the property of the child, who thus learns one of life's most useful lessons. * *

All clownishness and roughness should be banished from the school-room. Nothing that would be condemned in the drawing-room of a cultivated family should be permitted here. The manners, far more than the scholastic attainments of the child, will decide his position in society and his usefulness in the world, and should therefore receive the teacher's especial care.

The children should be taught the dignity of labor. It is God's price-mark of excellence from which there is no abatement.—Without it, existence is worthless; and he only who has learned to labor, has learned to live. We need not look to nations across the sea, or search the annals of the past, for the contrast between a birthright of honest toil, and a heritage of ignoble ease. Our own land has furnished the parallel, and its terrible insignificance this generation can never forget, for the woeful picture is painted with our life-blood and engraven upon our souls. Shall we of the free North boast of this inheritance of labor and let pride defraud us of its blessings? It has already laid its mortgage upon them, and unless we rouse ourselves to manly exertion, and by precept and example teach the children to reverence honest toil, upon us all will come poverty and blight.

Shall we profess to honor labor and seek by every means to avoid and conceal its performance? Shall we not impress it upon the child, that the man who, upon the farm or in the shop, is earning his bread by the sweat of his brow, however rough his hands or coarse his clothes, is immeasurably superior to him who is hanging on in idleness to a crowded profession, or mingling with the miserable swarm of official parasites. That the woman who, when circumstances make it necessary, can, without disguise or shame, perform the menial services of her household, while thus adding to the nobility of her womanhood by proving herself a true and faithful helpmeet to her husband, detracts nothing from the delicacy of her refinement or the dignity of her self-respect. Teach your boy to seek that employment for which nature has fitted him, but by all means to seek labor, not for pay alone, remembering the injunction, "Get work, get work, it is better than what you work to get it," and having found it, to make no mask of its performance. Show him that the hand which holds the plow or grasps the hammer may be as tender and true as the one which only wields the pen. That those delicate, thoughtful attentions to sister, wife and mother, which are the heart's definition of home, beautify alike the costly mansion and the humble cottage. That we should not seek education merely because of its market value; for its noblest object is not to fill the purse but to enrich the life. The labor should never be made the excuse for ignorance and clownishness, but should gather about its home every charm of refinement, every endearment of affection. Then will the effort to surpass others, which now curses American life, become a strife to excel in generous kindness, in real worth, in stern virtue, in manly self respect. Then shall we learn to measure a man not by the breadth of his acres or the height of his station, but by the sweep of his intellect and the largeness of his soul. We have still sadder evidence of our need to dignify labor. The most pernicious outgrowth of the eagerness to purchase ease at whatever price, is the corruption which obtrudes its loathsome face into the high places of our land, bringing blight upon individual character and reproach upon our national fame. As Americans we not hold our peace and see law and judgment made the price of place and gold. But while we do right to visit upon the culprit the weight of our righteous indignation, we know that the dastard who can sell his soul knows no honor and feels no shame, and not to him but to those who come after him must we look to wipe out this disgrace. Are we not conjured by national honor and by Christian duty, by the dignity of justice and the sacredness of law, to use every energy of our souls to train up a generation that will hound and hate the demon greed, and that would prefer a crust in a hovel with untarnished honor, to the costliest elegance with the canker of bribery upon the soul.

GAMBLING IN NEW NEW YORK.

The number of places in New York where gambling is conducted as a business may be estimated at about twenty-five hundred. They vary all the way from the magnificent saloons, where it is nothing unusual for twenty thousand dollars to change hands in a single night, down to the cellars, where the beggars and bootblacks play for pennies, and where the Chinese cigar and candy dealers dispose of the little they have made during the day.

The fashionable establishments are mainly on Broadway and in the vicinity of Fifth avenue, though some of the places on Houston street are fitted up with considerable care and present a very attractive appearance to many of their patrons. In the fashionable places no stranger is admitted unless accompanied by somebody who can certify to his character, not that first-class morals are desired, but the players want to be satisfied that nobody is attempting to play the detective. There is no outward sign to indicate the existence of these places, but a man accustomed to the peculiarities of the city can generally recognize them. The outer door generally stands open, and just beyond it is another with a bell handle at the side and a small wicket through which a visitor can be observed. A tickle of the bell will bring a porter, who closely regards the applicant, and if he recognizes one of the party he admits the others without question. Once inside, one can study the tiger at leisure, and ascertain by practical experience how easy it is to lighten a plethoric purse. Excellent suppers are served in all the first class establishments, and one can satisfy himself with the finest of liquors and cigars without paying for them, unless he joins in the game.

A man of my acquaintance once told me that he could not understand how the gamblers could afford to give such elegant spreads. "I have been," said he, "half a dozen times to one of them, and every night I had a splendid supper, with any and everything I desired to drink. I never paid anything for it, and every night I have put down a few dollars just to compensate them for the entertainment, but I alway won instead of loosing. I really don't understand it."

But one day he told me that the night before he had entered the same place with fifteen hundred dollars in his pocket, and after a heavier supper than usual he sat down to play. Before he left the place his fifteen hundred dollars were gone. He then understood how it was possible for the gamblers to give such magnificent feasts.

I have heard it estimated that the winnings of the regular gambling establishments in New York—that is, the money that goes into the hands of the professional gamblers—is not less than two million dollars a year.

TERRIBLE KEROSENE ACCIDENT.—A terrible kerosene accident, caused by the explosion of a lamp, occurred at No. 131 Meadow street, Hoboken. A family, consisting of three persons, were burned. The son has since died of his injuries, while the mother is fatally wounded. It seems that that William Haese, a German mechanic, was detained at his labor until a late hour, the wife waiting tea for her husband's return. Haes came home shortly after nine o'clock, when the family, consisting of himself, his wife Emily, and their son Gustave, a lad of eight years, sat down to table. In some way, while reaching across the table for a plate, the boy overturned the lamp, which broke. The oil exploded instantly, the blazing fluid scattering itself over the persons of all three, and setting fire to their clothing, burned them horribly. Their screams attracted the attention of the other inmates of the house, who rushed into the room and finally succeeded in extinguishing the flames.

BULL FIGHT IN SEVILLE.

We extract the following interesting account from a private letter by General Darling to a friend in Paris:

"A vast concourse of people, some 10,000 in number, assembled in the Plaza de Toros to witness a bull fight, terminating the festivities of the Agricultural Fair, which occurs each year in Seville during the month of April. Among the spectators were to be seen the various grades of Spanish society, all of whom appeared greatly interested in this most revolting spectacle of cruelty and bloodshed. There were four classes of bull-fighters present, who made their appearance arrayed in costumes richly decorated with gold and silver embroidery. These men approached the judge's box for inspection in the following order: espadors of the first-class, two in number, banderilleros of the second class, ten in number; and picadors of the third class, six in number. The espadors are called the *maestros* of the art, and are men of great daring and presence of mind; they use the sword only, and are called out after the bull has been weakened and worried by the other matadors. The banderillos posses swiftness of foot, also great dexterity in handling their darts, which they hurl with unerring skill; they are provided with red and yellow mantles with which they attract the bull. The picadors are the only mounted men, and each one of these individuals carries with him a heavy lance. The fury of the bulls is generally first directed toward the horsemen, who present a more extensive mark. The bulls are bred in a portion of Andalusia remote from the habitations of men, and the most ferocious ones are invariably selected for fighting purposes. At a given signal the bull fighters took their positions in the arena to await the coming of the bull; a door was then opened, and bull number one rushed wildly into the vast cicular space. He gave an angry glance at the horses and their riders who were nearest to him, then sprang forward and ripped the bowels out of three horses in about as many minutes. While engaged in this little tragedy the bull received three severe wounds from the lances of the picadors. The banderilleros then ran forward with their darts, and successfully evading the attacks of the bull, managed to plant a number of their weapons in his neck. At this period of the performance a first grade matador was summoned, who, after a short but decisive struggle, succeeded in burying his Toledo blade in the neck of the furious breast; this is always considered a difficult and dangerous work, for to strike the bull effectually the matador must permit the animal's horn to pass under his right arm. The cold steel so thoroughly disagreed with the constitution of our horned friend that he gave a hollow groan, a convulsive shake, and fell a lifeless lump of tough beef, in close proximity to the horses which he had killed. The defunct animals were then drawn out of the bull ring by mules gaily caparisoned, and the victor retired amid the approving shouts of an excited multitude and the music of a military band. The second bull was an animal of immense size and strength. When the toril door was again opened, he leaped savagely into the arena and paused a moment to reconoitre. Perceiving the six picadors, who had been reinforced in horseflesh, he attacked them separately, with all the fury of a Royal Bengal tiger. The first horse he caught with his horns, under the left fore-leg, lifted him bodily up, and threw the rider violently to the ground. The bull, scorning to contend with a fallen enemy, rushed towards a second picador, whose frightened horse, turning suddenly around as the bull came up, received a blow in the rear, which doubled him up like a jack-knife, and rolled horse and rider together in the dust. For a moment, as the infuriated beast stood over them, glaring at them with his bloodshot eyes, it seemed as if a vacancy would certainly occur in the organization of the bull-fighting fraternity. At this critical juncture the man was saved by the banderilleros, who shook their red mantles and lured the bull away. The poor horse was so sadly gored in his hind quarters that he died on the spot where he fell. A third picador, assuming the aggressive, boldly rode his horse up to the bull, as he stood at bay, and at the same moment that he thrust his lance into the animal's neck, the horns of his formidable antagonist found an uneasy resting-place in the stomach of his fated steed. The disemboweled horse, in a perfect frenzy of terror and distress, ran uncontrolled once around the entire circumference of the arena—a distance of over 700ft., with his entrails hanging out in a huge unsightly mass. Before the espadors were summoned by the judges to perform the finishing strokes, this powerful creature had left upon the ground, as evidences of his ferocity, the carcasses of five dead horses. One of the picadors received a wound in his leg from the bull's horns; the rest of them escaped unhurt. The matadors, by their agility, and the aid rendered when in difficulty by their comrades, generally manage to avoid serious injury. This performance lasted two hours, during which time the lives of seven bulls and fifteen horses were sacrificed. The two first bulls, however, were the champions. They did more execution than their doomed successors, and fairly earned the reputation of what the Spanish people call—*good bulls.*"

POPE PIUS IX has issued a letter granting a plenary indulgence on the following conditions:

"We announce to the whole Catholic world an Indulgence in the form of a Jubilee. In the name of God most powerful and most merciful, supported by the authority of the holy Apostles St. Peter and St. Paul, in virtue of the power of binding and loosing with which our Lord has invested us, however unworthy, we grant a Plenary Indulgence, and remissions of all their sins, as it is granted in the year of Jubilee, to all the faithful of both sexes, either dwelling in our much loved city of Rome, or having come within her wall, who shall, between the 1st of June, and the day of the closing of the Ecumenical Council convoked by us, visit the basilicas of St. John Lateran, the Prince of the Apostles, and St. Maria, Majore, or at least visit one of them twice and devoutly pray there for some time for the conversion of sinners, for the propagation of the faith, and for the peace, tranquillity and triump of the Catholic Church; who, in addition to the accustomed fast of the Ember days, shall fast for three days, even not consecutively, that is to say, Wednesday, Friday and Saturday, and who, in the course of time, shall have confessed their sins, reverently received the Holy Sacrament of the Eucharist, and given some alms to the poor according to their power. To all not living in Rome, we grant the same Plenary Indulgence and remission of their sins, on condition of their visiting, within the given time, the churches which shall be pointed out by the Ordinary of the place, or the Vicars to whom the charge of souls is committed, and fulfilling the conditions already spoken of. This Indulgence is applicable to the souls in purgatory."

Travellers by land and sea may gain it by fulfilling the conditions and visiting twice the cathedral or parish church of the place where they are.

DISCOVERY OF VALUABLES IN THE TREASURY DEPARTMENT.

A Washington despatch to the New York *Tribune* says:

In June, 1865, there were received at the Treasury Department three large wooden boxes, said to contain valuables, turned over by the War Department for safe keeping. These boxes have been lying ever since in the vaults of the Treasury, but were to-day opened through the efforts of a United States Senator, some of whose constituents were supposed to be interested. A committee, composed of officers of the War and Treasury Departments, witnessed the carrying out of the joint order of the two departments. The boxes were found to contain exceedingly valuable invoices of diamonds, pearls, necklaces, watches, earrings, brouches, rings, chains, seals, and all manner of rare and expensive jewelry to the value of many thousands of dollars. The most valuable property, however, which the boxes contained was a very large amount of gold and plate, consisting of pitchers, salvers, spoons, knives, urns, &c., some of which was thought to have been more than a hundred years old. One of the boxes contained some very rich wearing apparel for ladies—silks, velvets, laces, &c.,—besides an incredible amount of Confederate notes and bonds and notes of State banks. There was also a small amount of specie, both gold and silver. The boxes were about the size of ordinary dry goods boxes, and the value of their contents is variously estimated at from $20,000 to $100,000. Many of the articles were stamped with the family crests, initials or monograms of the owners, and all were of the finest and most costly decription. The boxes were sent by the Provost Marshal General of the Army of the Tennessee to the War Department in this city, and Secretary Stanton turned them over to Treasurer Spinner, subject to future action. The valuables are supposed to have been taken possession of by Sherman's men in Georgia and other States, where they had been abandoned by the fleeing inhabitants. In some cases they were taken from banks, which had ceased to do business upon the approach of the Federal army. The officers of both departments are uncertain of their duty in the disposition of this property. Some hold that it should be returned, under proper restrictions and proof, to the owners, if they can be found. Others believe the articles belong to the Government, under the laws of Congress, and that they should be sold, and the proceeds placed in the Treasury; while still others affirm that neither the War nor the Treasury Departments has any authority in the premises, and that a special act of Congress should be called for. Nothing has yet been done, and the valuables have been returned to the vaults of the Treasury.

THE GREAT MEETING OF THE DUNKARDS.—BOTETOURT COUNTY, VA., May 21.—The meeting of Dunkards now in progress in this county is, as I am informed, a seven years' convention, in which all parts of the United States are represented. The preparations for it on the part of the native members of the society in Botetourt and Roanoke were upon a scale that would surprise any who are not familiar with the proceedings of these people on such occasions. The number of Dunkards expected as delegates and visitors from other parts of the country was by some set down at ten thousand, and by others at fifteen thousand.

The camp-ground of the meeting displays a vast array of tents, and the immense tables are provided with a number of deacons, who have been chosen to serve them. The store of provisions collected beforehand may be judged from one or two items. In the article of beef cattle fattened, the number was seventy to eighty, and a visitor who saw them before the slaughter had begun declared that he never saw a fatter and finer herd. As to coffee, the quantity prepared is said to have been so large that great out-door ovens were made to roast it in over huge log fires, and a grain-mill was hired for the purpose of grinding it.

Of the arrangements for washing the feet of the disciples I cannot speak particularly. When it is considered that each one of the great congregation has to receive this evidence of brotherly love, the imagination of the reader will have ample scope to picture the nature and variety of the ablutions, and the quanity of water, basins, and towels required in the premises.

It is equally impossible to describe the great multitude and variety of the kisses of charity which take place on the occasion; for with the meeting kisses, the parting kisses, and the kisses that transpire during the various religious services, it is hardly extravagent to say that the woods and fields are vocal with the notes of salutation—some so faint as hardly to be perceived, some a little more expressive, and some demonstrative and prolonged. This ceremony is strictly confined to the sexes to which the participants belong, men kissing men and women kissing women.

LAY DELEGATION IN THE M. E. CHURCH.—The time approaches when the Methodist Episcopal Church is to decide the important question of the admission of laymen to its eclesiastical councils. At the last General Conference, met in Chicago in the Spring of last year, the following resolution was passed, fixing the time and manner of determining the sense of the people upon the question:

"*Resolved*, 2. That during the month of June, 1869, on any day except the Sabbath, the time to be determined by the Pastor and the two laymen appointed by the Quarterly Conference, as hereinafter provided, there shall be held a general election in the several places of worship of the Methodist Episcopal Church, at which all members in full connection, and not less than twenty-one years of age, shall be invited to vote by ballot, "For Lay Delegation" or "Against Lay Delegation." This election shall be held under the direction of the Preacher-in-charge and two laymen appointed for the purpose by the Quarterly Conference, who shall see that due notice is given thereof for at least twenty days before the election, and who shall superintend all the details of the election. They shall report the result within ten days after the election to the Presiding Elder of the district, who shall report the same to the Bishop presiding at the ensuing Annual Conference, to be entered upon the Conference Journal."

It is more than probable the question will carry by a large majority.

SAD.—In Shaw, Ill., a few days since, a farmer named Stanton went into the field to plough, and was followed by his two little children, a boy and girl, who stopped to play in the high prairie grass. Not being aware of this fact, Mr. Stanton set fire to the grass, and the children were soon enveloped in the flames, the noise of the fire drowning their shrieks. The father went home to dinner, and the children not returning, search was made, when the body of the little girl was found, burned to a crisp. The boy had managed to escape to the ploughed ground, but was dangerously burned.

CHARLES H. SWEETZER, who is now editorially attached to the St. Paul *Dispatch*, asserts that there at least a dozen milliner's establishments in New York alone, where they keep a generous sideboard, and where lady customers do not refuse to sip and sip after the manner of topers of the olden times.

GEN. TERRY has been assigned to the command of the department embracing South Carolina and Florida. Johnson, to get rid of a good Radical, banished him, to the Indian frontier. His administration of affairs South will no doubt prove highly satisfactory to the country.

REPUBLICAN VICTORY.

The Municipal election in Washington City on Monday last resulted in a signal Republican triumph. They carry the city by about 4,500 majority, sweeping every ward, with an overwhelming majority in the City Councils. The Democrats made strenuous efforts to secure a sufficient portion of the colored vote to control the result, bought over some active colored politicians, put up tickets labelled "Citizen's" candidates, invited "colored citizens" to their ward meetings, and utterly ignored the Democratic dogma that this is a "white man's government." But all without avail. The great mass of the colored voters maintained their fidelity to principle and voted the Republican ticket. The Republicans elect their entire city ticket, including the collector, register, and surveyor, by a large majority, probably over four thousand. Nine colored men are elected, viz: the register, one alderman, and seven members of the Common Council.

There was great order at all the polls, except in the second ward, where the colored men made an attack upon one of their number who was acting with the Democrats. One man is reported killed. The disturbance was soon quieted by Mayor Bowen, though not till Major Richards, superintendent of police, had been maltreated.

THE "Orangemen" in Ireland are just now rampant in their denunciations of Gladstone and the leaders of the Liberal party in the English Parliament. Large meetings have been held and monster petitions prepared in Londonderry, Dublin and other points, denunciatory of the Bill to disestablish the Irish Church. Gladstone was maligned as a traitor to his country, his queen, and his God, at a public meeting of this organization, some days since. When Prince Arthur visited Trinity college, Dublin, the students, who are mostly Orangemen, shouted for "church and state," and groaned for all Catholic colleges and supporters, until the prince became digusted, and, ordering his carriage, refused to continue his visit. Human nature, moulded by traditional education or selfish purpose, presents queer characteristics. The great political principle underlying Protestanism is that of individuality—the development of the idea of individual responsibility, and the negation of the right of power, eclasiastical or civil, to interpose between the individual and God in the matter of religious worship. Hence Protestanism, in its truest development, discards all theories of State religion. The union of Church and State has been the bane of Ireland for centuries. Irish Catholics have protested, and rightly, against a politico-religious system which has compelled them to support the established church, in which they have no part, and which, in its administrations, is offensive to all their traditional education and personal convictions. Hence have grown largely the deep-rooted bitterness, and discontent that characterize the mass of the Irish people and the rebellions into which this discontent has ripened from time to time. Gladstone's bill to disestablish the Irish church is a concession to the liberal demands of the age, and a large advance on the established principles of the British Government. It has aroused the prejudice of English Conservatism, excited the fears of timid Protestants, and brought into active antagonism the machinery of the Orange societies scattered over the kingdom. Undismayed by this opposition, Gladstone has triumphantly carried his bill through the House of Commons, and the next struggle will be in the House of Lords, where the dignitaries of the established church sit as Peers, and where grey-headed, self-complacent conservatism rules supreme. The Bill will be stubbornly resisted and probably defeated in the House of Lords. But triumph must come in the end. The Commons represents the progressive element of the British empire, and if the Peers interpose, it will be a contest between Young England and old Fogyism—between the activities of the living present, and the fossil representatives of the buried past. "Young America" is the dominant element in our Republic, and "Young England" is bound to rule the British empire. The bills for the disestablishment of the Irish church and the extension of the elective franchise are but the beginning of a new era in the English political system.

A CORRESPONDENT, in another column, desires further light as to the order excluding the colored Sabbath School from participation in the ceremonies of Decoration day, and to which we alluded last week. Without being able to throw any special light on the subject, we can only add the explanation as communicated to us. After all the arrangements had been completed, at a late hour, some members of the Zouave company, and also of the squad to whom the firing of minute guns had been assigned, interposed objections to the colored school being permitted to unite in the procession, with threats of refusal to participate unless it was prevented. In a hurried consultation, under the impulse of the moment, to avoid trouble in this direction, a majority thought best to yield, and hence the order of exclusion. It was unfortunate and unwise—a pandering to a low, vulgar prejudice—but we feel satisfied that there was no deliberate purpose on the part of the committee who had the ceremonies in charge to sacrifice principle or outrage Christian sentiment. Had there been time for reflection or calmer action, the community would have saved the humiliation of the obnoxious order.

SINCE the adjournment of Congress the President has removed at least nine of his own appointees, viz.: Two Consuls, one Indian Agent, two Collectors, one Assessor, and three Postmasters.—Thus, GRANT is redeeming his promise to make fidelity in office the great requisite for holding it. He may occasionally be misled into nominating, and the Senate into confirming, an unworthy or incompetent person; but the President will, when the error is discovered, not be deterred, by false pride of opinion, from doing his full duty to the country by a prompt removal. The increasing amounts received by the Government from taxes, are so many proofs of the improved and improving character of the officials who have charge of this branch of the service.

THE XVTH AMENDMENT, AGAIN.

The *Compiler* has done a remarkable thing. It has undertaken to give a reason for its opposition to the XVth Amendment securing Universal Suffrage. Its reason is the remarkable one, that if the colored people become voters, the whites will thereupon proceed to amalgamate with them! It evidently thinks that people marry for the same causes which control their voting.

We once had Colored Suffrage in Pennsylvania; but who ever heard that it had a tendency to produce amalgamation? There never was Colored Suffrage in Kentucky, and yet we know that one of the most distinguished of Kentuckians—Col. RICHARD M. JOHNSON, whom the Van Buren men elected Vice President of the United States in 1836—married a mulatto woman, and preferred her to any white woman. We think, but are not sure, that he married a second, after the first died. Now, that was due, not to Johnson's Democratic principles, nor to the Colored people having or not having the Suffrage. It was the result of his peculiar taste. The circumstance, it is well to remark, did not degrade him in the eyes of his Democratic friends, for they thought him fit to be, and made him, Vice President, notwithstanding his mulatto wife.

Nothing is more absurd than this pretence of the Democratic organs; and their views on this last of the War questions are just as limited, and incorrect, as on all others on which the people have passed the last seven years.

The Rebellion compelled Emancipation. Emancipation drew after it the Suffrage, for two reasons. *First*, there was no way in which the Colored people of the South could be secure in their simplest property and personal rights, except by giving them the right of Suffrage. And, *second*, any one who thinks must see that nothing can be more unsafe, in a republican government, than to have a population of four millions of citizens, denied all participation in it and thereby prepared for permanent disaffection towards it. Besides, with the right of Suffrage secured to the Colored people of the South, as a necessity to their own, and the public, safety, upon what ground could the same right be denied to the colored people of the North? There are, also, the other considerations that this is but a return to the general practice in the early history of the government; and that, with this right made universal, and our institutions planted upon the principle of equality of rights and electoral power in every citizen, there will be an end, and forever, to the Negro question which has troubled and vexed the Nation sorely for thirty years.

The Democratic papers argue against this last progressive step, as if it was a new question; whereas, in point of fact, the War has settled it for us, and we are merely registering the stern and immutable logic of the sword.

He who *cannot* see this, must be blind to the whole history of the Rebellion-period. He who *will* not, is but a blind leader who will be sure to take all his followers into a ditch.

A. J. ON THE RAMPAGE.

Ex-President Johnson is again on the stump in Tennessee, travelling from point to point, and dealing out his fulminations against the Republican party. A. J., having thrown off his official character, has doffed the guise which concealed his real purpose in betraying the Republican cause, and seems anxious to satisfy the South that "my policy" meant nothing more or less than purposed aid and comfort to the lost cause. He made a speech at Clarksville, Tenn., last week, in which he denounced Senator SUMNER as an enemy of the Constitution—landed Jeff. Davis as a better friend of constitutional government—and pitched into Gen. GRANT, in this wise:

"They call Grant a second Washington. Let us see how he merits this name. In his first inaugural Washington said: 'The magnitude and difficulty of the trust to which the voice of my countrymen have called me bring sufficient cares to awaken, in the wisest and most experienced citizen, a distrust of his powers to carry on the great and responsible duties, and to doubt his qualifications for so grand and high a trust.' In his first inaugural Grant said: 'The responsibilities of my position are great, but I assume them without fear.'—There is the first contrast—the diffidence and dignity of the one, and the arrogant self-sufficiency of the other. Washington did not enter the Executive Mansion as into a grand gift establishment; but how is it with the second Washington? He was approached by one man whom he afterward appointed Secretary of the Treasury, with a $65,000 check; by his future Secretary of the Navy with a deed to a furnished house in Philadelphia; by his Attorney General that was to be, with an expensive library; and so on *ad infinitum*, each one that hoped for office coming with an expensive gift to purchase it. Here is a second comparison. The real father of his country was for the maintenance of the principles and the good of his country, while the second Washington was shrewdly looking out for himself.

Evidently Gen. GRANT has been guilty of at least two mortal offences for which A. J. will never forgive him—first whipping Gen. Lee and crushing out the Rebellion at Appomattox Court-house; second, whipping Andrew Johnson and crushing out "My Policy." All this gabble about President GRANT selling out Cabinet and other official positions, while it smacks strongly of the fish-market and may pass for No. 1 demagogueism, sounds queerly coming from a man whose official administration was disgraced by a shameless prostitution of official patronage, through the agency of notorious courtezans, pardon brokers, and adherents of the whisky ring—whose operations, in the pardon of notorious convicted felons, continued up to the last hour of A. J.'s administration. It is humiliating that an Ex-President of the Republic should be so utterly lacking in decency and ordinary self-respect, as to travel the country in the *role* of a ranting demagogue; but Providence kindly interposes long periods of time betwen the production of eminently bad men in high official position, and it may be a long time before the country shall be afflicted with another Andrew Johnson.

THE Republican State Convention will meet in Philadelphia on the 23d inst. Judging from the tone of the press in different parts of the State, we take it for granted that Gov. GEARY will be re-nominated without serious opposition. Gen. HARTRANFT, W. W. KETCHUM, Gen. HARRY WHITE, and other good men named in connection with the candidacy, are backed by warm supporters; but the disposition seems to be general to continue Gov. GEARY another term—his administration having been eminently successful. I. N. DURBORAW, Esq., is the Representative, and WM. KING, Esq., the Senatorial delegate from Adams county.

BISHOP SIMPSON of the M. E. Church has announced himself in favor of Female Suffrage—giving as his reason that "on all moral questions and on all questions affecting the right of women to engage in any honorable calling to gain a livelihood, the ballot in her hands would be a powerful element."

SOUTHERN REPUBLICANS.

Two State Conventions have recently been held in Tennessee and Kentucky. In the former a bitter division arose, and two nominations for Governor were made: William B. Stokes, and D. W. C. Senter. Mr. Stokes has since been in Washington, and reports that he will easily be elected; but that if there should be danger of a Copperhead "running in" between, a compromise of the two would be made.—Meanwhile, Andy Johnson has waked up, and is stumping the State against the Republicans. His speeches are violently denunciatory, and their effect is generally to strengthen the Republicans. Our party is not entirely harmonious in Tennessee, but we see no reason to doubt the maintenance of Republican supremacy there.

In Kentucky, the Convention was full and pervaded by an excellent spirit. Recent great abuses and extravagances by the Democrats in State management have created pervading dissatisfaction among the people; and the Copperhead party are divided upon sundry questions of National and State interest. One party persists in refusing to allow colored persons to testify in State courts; while the more enlightened concede the cruelty of the restriction. The money of the people was wastefully spent by the last legislature; and our friends enter upon the canvass expecting to increase considerably the vote of last year. With the colored population enfranchised, the Copperheads of Kentucky, like those of Maryland and Delaware, will wake up to see their power gone, and their supremacy destroyed.

A feature of the Kentucky Convention was a speech from Hon. WM. H. WADSWORTH, of Maysville, a Union man who for a time co-operated with the Democratic party, but who has become, by the logic of events, fully penetrated with Republican ideas. We quote a few lines from a letter of a correspondent:

"Mr. Wadsworth was more than himself. The occasion lifted him above the surroundings that generally hide the future from human vision, and enabled him, in the light of present events, to read the approach of that time when man should be truly disenthralled. He apparently made little effort; certainly there was no disposition to make display. One of his most eloquent passages was when he stood with one foot upon a chair and leaned upon the uplifted knee.

'We plant ourselves,' said he, 'firmly upon the principle of equality before the law.'—Then he traced the present enormous inequality by which the colored man could not with his testimony convict the white man of any offense, while in matters pertaining to occurrences between those of his own color he was regarded as a proper person to testify in cases of life and death. As he denounced this iniquity, he turned to the audience, and with face lighted with manly pride said: 'That is not Kentucky. No, I swear it. That is not the spirit of Shelby and Clay. Kentucky will not do this; she will measure a man by what he does, not by his color.'

This was followed by great applause.—Once as he was paying a tribute to the devotion of the colored population, he turned to the audience and with irony that would have wilted the most rebellious, said: "The black man who gave his blood for the country's life, loved as strongly as Jefferson Davis or John C. Breckenridge.'

Public opinion, he said, would scorch to ashes Kentucky if she yet persisted in closing the doors of the Court House against the poor, and taking their property and their blood without the opportunity of saying yes or no.

He called upon Union men, who had been induced to co-operate with the Democratic party, in the name of things sacred in earth and in heaven, to quit the ranks of the enemy, and ally themselves with their old friends, and to cease to be moved longer by the fashion of the dead and doubly-damned rebellion, which he said was the most permanently condemned thing that ever raised its head in this country or the world.

GREAT interest attaches to the decision of the question of Lay Representation by the Methodist Episcopal Church, the voting on which is now in progress. The question has been agitated for a number of years, and many of the ablest Ministers and laymen have given it their endorsement. We notice that Bishop SIMPSON recently presided at a meeting held in Pittsburg to further the movement. The last General Conference agreed to submit the decision of the question to the membership of the church. As far as the voting has been announced, it seems to be very decided in favor of Lay Representation. The *Methodist* furnishes the following explanation of the duties and privileges of the adult members of the M. E. Church in the election now in progress:

1. The vote of the people has no direct reference to any plan; the adoption of the *principle* only goes to them for decision. The ballots, therefore, are to be inscribed "For Lay Representation" or "Against Lay Representation."
2. The election may be held at any time during the month of June, and on any day *except Sunday*.
3. Twenty days' notice of the election must be given to the members of each church.
4. The election is to be held under the direction of the preacher-in-charge, and two laymen appointed for the purpose by the Quarterly Conference. The Pastor and the two laymen so appointed are also to give notice of election.
5. All members in full connection, of 21 years of age and over, are entitled to vote. This includes both male and female members.
6. Within ten days after the election, the result of it must be reported by the Pastor and his lay associates to the Presiding Elder of the District.
7. The Presiding Elder must report the result in each church of his District to the Presiding Bishop at the ensuing session of the Annual Conference. Said result is then to be entered upon the Conference Journal.

THE Republicans expect to carry five of the six Congressional districts in Alabama.

THE RAILWAYS OF THE WORLD.—Mr. Poor, in the new series of his admirable Manual of the Railroads of the United States, gives an interesting table, compiled from the latest official statements of all nations, showing the number of miles of completed railroad, and their cost, compared with the area and the population of every country. The great Empire of China, the whole of Northern and Central Asia, and all of Africa, except Egypt and the French and English colonies, countries in the aggregate containing more than half of the human race, have no railroads, and therefore do appear in table at all.

Among the countries represented there are but four in the world, besides the United States, each of which has as many miles of completed railway as the state of Pennsylvania. Thus:

	Miles.
The United Kingdom (Britain) has	14,247
The French Empire	9,934
Prussia	5,926
Or including all North Germany	7,287
Austrian Empire	4,429
The state of Pennsylvania	4,398
The United States	42,255

or as many as Great Britain and Ireland, France, North Germany and Austria together, with all Russia and Denmark besides.

WHAT A CHANCE!—In the inception of the late Rebellion, northern ears were frequently "regaled" with Southern vauntings, setting forth what would and what would not take place, as might suit the fancy of an over-ardent tropical imagination. For instance, Robert Toombs boasted that he would, in a few years, call the roll of his slaves at the base of Bunker Hill Monument. That "chivalrous" and "high-toned" Southern gentleman now contents himself with receiving his mail inclosures from the hands of a colored postmaster, at Macon, Ga.

You see, when I cut off a piece of an ear—" Well?" "Well, he eats it."

GENERAL LOGAN ON THE DECORATION OF REBEL GRAVES.—General Logan has issued an order, dated at Washington, June 2, as Commander-in-Chief of the Grand Army of the Republic, in which he explains, officially, why the graves of Rebels were not decorated as well as those of Union soldiers. He says that the charges against the guard at Arlington are wilful exaggerations. The guard received their instructions from the Committee, and it is believed that they discharged their duty in a proper spirit. The Grand Army of the Republic seeks to honor and preserve the principles and institutions for which its members and their dead comrades fought. We strew flowers, therefore, on the graves of our comrades, and prevent their being strewn in the national cemeteries at the same time on the graves of such Rebel dead as may be buried therein, not because we cherish any feelings of hate or desire to triumph over individual foes, but because we seek to mark in this distinction and manner the feelings with which the nation regards freedom and slavery, loyalty and treason, Republican principles and those of a slaveholding oligarchy. We are ready to forgive—we hold no malice—but we will never consent by public national tribute to obliterate the wide gulf which lies between the objects, motives and principles for which we have fought and our comrades died, and those for which Rebel armies banded together, and for which *their* dead now lie in numerous graves.

IMPORTANT DECISION.—In the case of James Weaver, a citizen of Texas, tried for murder, convicted and sentenced to be hung by a military commission, the Attorney General has given an opinion in which he reviews the reconstruction laws, and the duties of the commanding officer, and says as the State of Texas had not in September, 1868, and has not since adopted the Constitution in conformity with the provisions of the act of Congress, and has not become entitled to representation in Congress, the act was operative in Texas at the time the military commission was organized for the trial of Weaver, and the commanding general exercised the discretion entrusted to him by the third section by deciding that it was necessary a military commission should be organized for the trial. If, therefore, the statute of March 2, 1867, is a constitutional and valid statute, it then appears that the jurisdiction of the said military commission was complete, and that there is no legal obstacle to the execution of the sentence. The Attorney General maintains that the right of war did not necessarily terminate with the cessation of active actual hostilities, and not until the work of restoring the relations of peace shall have been accomplished can it be so considered. It is for Congress to determine when the war has so far ended that this work can be safely and successfully completed.

SPAIN.—The promulgation of the National Constitution formed by the Constituent Cortes of Spain took place at Madrid on Friday, in the presence of what the cable telegrams call an immense and enthusiastic concourse of people. The enthusiasm of a portion of the throng vented itself in hissing at the Deputies and the Constitution, and a riot ensued, in which two men were killed and several wounded. The Deputies present took an oath to support the Constitution, but the Republicans absented themselves and were not seen at the ceremony. Probably Casteller and Prim will soon be heard of in another movement for liberty that will be more successful than that whose ending has just taken place. A bill is to be introduced into the Cortes creating Serrano Regent of Spain. Meanwhile, great anxiety is being felt in Spain in regard to the state of affairs in Cuba. The hurried exodus of Dulce and the Bishop of Havana will not allay this uneasiness. The Government is beginning to take the first step of a consciously weakening cause—that of refusing to allow the truth about their opponents to be published.

A WELL-INFORMED Washington letter-writer gives the following [illegible] statement of the financial plans of Secretary Boutwell, and the integrity of the Administration:—"The whole secret of Secretary Boutwell's administration is to collect as much revenue and to pay off as much debt as possible. And the short way to do this is to cut down expenses, and to employ none but honest officers. We have seen how expenses are being reduced; and if those chosen to collect the revenue, either internal or external, are found faithless, there will be a short and stern application of the necessary remedy. No politicians will save or screen them. No "ring" will be strong enough to reach the Executive; for there, thank heaven, we have not a revengful partisan ready to protect all who do his service, but a plain, honest soldier, who learned to hate a jobber or a plunderer in the army, even worse than he opposed a rebel."

THE *Record*, a Democratic paper published at Newtown, Worcester county, Maryland, under the head of "Just Retribution," publishes the following brief account of one of the most primitive cases of administered justice we remember to have heard of in a civilized community, without the perpetrator being punished. The *Record* says: "A colored girl was hired by a gentleman residing a few miles from Newtown, in Somerset, and having been furnished with money and clothes in advance, took her departure the first opportunity. On Sunday last, the gentleman evertook her on one of our public strets, and after chasing her for some distance, caught and stripped her of every garment she had on, and left her on the street in a state of complete nudity."

NEW FENCE POST.—William A. Middleton, of Harrisburg, has obtained a patent for a metallic fence post. The *Telegraph* says of it: The post is of ordinary height, mortised ready for use, and where land is not stony, it can be screwed into the ground, thus saving the trouble and expense of digging, and enabling the farmer to construct his fence without the aid of any one to hew and mortice. Besides being ornamental, the metallic post will never wear out. It can be removed without trouble, if a portable fence is desired. It weighs but thirty four pounds, and is so simply that any foundry can make it, thus enabling farmers to procure it, in their own community. The cost is only about as high as that of a good locust post.

THE June number of the New York *Phrenological Journal* contains a sketch and portrait of R. A. McMurry, a clerk in the Treasury Department, who is well known in Washington as the "lightning calculator." Phrenologically speaking, the *Journal* says:

Mr. McMurray's reasoning faculties predominate. His intuitive apprehensions are ever active, and stimulate his reflective powers to reason out their quickly-acquired impressions.

His dgughter Lizzie, a bright little girl of nine years, has inherited the wonderful powers of her father. For instance she can multiply sums like this: 12468910258-9867 by 489246891012, (or any other combination of figures, and give the result in a single line, and as rapidly as she can write the figures.

A MADISON Avenue bride (New York) has a wedding gift from her father of a house furnished with all the "modern conveniences." Nearly all the bedrooms are hung with silk, the beds being placed in alcoves and entirely hidden from view. Long mirrors from ceiling to floor are in every room. The attic has been fitted up as a croquet ground, the walls and wood-work padded with green reps, the floor covered with the same. In the cellar, which has been cemented and paved, a long alley has been built for bowling, with every convenience of gas, fires, &c., for all weather.

NEWS OF NEIGHBORING COUNTIES.

CARROLL.—Among the patents granted during the week ending May 25th, was one to Lewis A. Haines, of Wakefield, Carroll county, for a time lock.—George E. Wampler, of Westminster, has been appointed Assistant Assessor of Internal Revenue for Carroll county.—Dennis Cole, colored, was arrested in Westminster last week for stealing a pair of gaiters from the store of W. H. H. Geatty.—On Monday night last the stables of John P. Price and George Showers, in Manchester, were destroyed by fire.

CUMBERLAND.—The trial of Dr. Schœppe was concluded on Wednesday of last week. The case was given to the jury at 1 o'clock, who returned at 5 with a verdict, "Guilty of Murder in the first degree." The jury was polled by counsel for Schœppe, and each man answered affirmatively on the verdict. A motion for a new trial was then made, which will be argued at a future term. Schœppe was defended by Wm. H. Miller and Judge Hepburn.—Adam Titus, charged with the murder of Henry Staum, near Shippensburg, in January, plead guilty, when the court proceeded to hear testimony in order to determine the degree of guilt.—S. L. Pretz has been appointed Postmaster at Shiremantown.

FRANKLIN.—On the night of the 2d inst., the stores of Hon. W. W. Paxton and Andrew J. White, in Chambersburg, were entered by burglars, the fomer losing hats, caps and gaiters to the value of $30, and the latter losing ready-made clothing to the value of $150.—We notice, in the list of patents issued for the week ending June 1st, 1869, one to Mr. J. F. Fisher, of Greencastle, for a Guano Attachment to Seed Drills.—Joseph Schofield, of the firm of Frey & Schofield, of Chambersburg, met with a severe accident on Thursday last, in Hagerstown, where he was engaged in calciming the walls of a Church. The scaffold on which he was standing, broke through, and a piece or corner of the broken board was driven into his foot, breaking a bone and severing on artery.—Daniel Mowers, wagon maker, of Fayetteville, cut himself badly on Thursday last. He was hewing a piece of timber with a hand axe, when the axe glanced and struck him on the right limb, near the knee pan, cutting him very severely. Dr. Hartzell was called in and after much difficulty succeeded in stopping the flow of blood and stiching the wound.—On Monday the 31st inst., Mr. John Myers, an employee of Samuel White, of the vicinity of Fayettsville, met with an accident. When in the vicinity of Upper Strasburg, he was caught in the terrific storm that visited that section; the storm striking his wagon, raised the bed up, threw it over and uncoupled the wagon. Mr. Myers in order to save himself from being thrown out attempted to jump on the tongue; in doing so he missed his footing and fell between the horses and became entangled in the traces. The terrified animals dashed off at a furious rate, with the front part of the wagon, and Mr. Myers in his perilous position; after running about one-fourth of a mile, he, in some providential manner, became disentangled and fell to the ground. He was picked up and taken to a house in an insensible condition, when medical aid was summoned. For some time his life was despaired of, but is now out of danger.—The Franklin County Horticultural Society will give its first exhibition, in Repository Hall, on Saturday, the 12th inst.—About 5 o'clock on Monday evening, the 31st ult., a storm of unusual severity passed over Waynesboro' and vicinity. In many places fences were leveled with the ground and forest trees and fruit trees uprooted. The stable of Mr. Jacob Stouffer, on the Ringgold road, was demolished, and also the stable of Thos. J. Cunningham, near Pikesville. The large barns of John W. Good and Jos. M. Hess were partly unroofed. Of fourteen apple trees in the orchard of Jos. Ripple, only four were standing after the storm abated. Several large apple trees in the orchard of Mr. David Patterson were also prostrated. There are doubtless many other persons who sustained losses by violence of the storm.

FREDERICK.—On the 3d inst., a child of about six years of age, a daughter of the widow Ryder, in Frederick, died suddenly from eating too freely of Locust blossoms.—The Frederick County National Bank has declared a dividend of four per cent. for the last six months, and an "extra dividend" of two per cent.—The "New Richmond Mills," on Bollinger's creek, three miles from Frederick, were destroyed by fire on the 3d inst., loss $10,000, supposed to be the work of an incendiary.—The severe storm which passed over Emmitsburg last week, tore the roof from the barn belonging to Lewis Shriver, living three miles east of Emmitsburg. Many large trees were torn up by their roots, and considerable wheat knocked down.—On Monday night last the flouring mill and saw mill of Mr. W. H. Zimmerman, of Frederick, situated on Israel's Creek, near Walkersville, were entirely consumed by fire.

FULTON.—On Monday evening the 31st ult., portions of Fulton county were visited by the same storm which was felt at Waynesboro, the hail doing considerable damage to growing crops. J. P. Connelly, Todd township, had a ten-acre field of rye literally destroyed, and the hail lay three inches deep on the ground, after the subsidence of the storm. The saw-mill of Messrs. Bozzart & Weaver, on the Meadow Grounds, was blown down by the violence of the wind, and a horse hitched adjoining, owned by Mr. Alexander, the sawyer employed in the mill, was killed by the falling of the roof. The hail storm, following the natural laws governing such phenomena, proceeded in a narrow track, or "vein," and passed in a Northeasterly direction expending its greatest violence in its path across the upper end of Todd township. The window glass and growing crops of A. J. Fore, Esq., in that vicinity, suffered extensively. Nearly every pane of glass was battered out by the heavy hail stones, whilst his growing rye and wheat were cut down to the ground. Others in the same neighborhood also suffered to a considerable extent. At Harrisonville hail fell to the thickness of 3½ inches, and it is said by the oldest citizens to have been the severest storm ever witnessed. The corn in the route of the storm is ruined. Some of the largest trees in the vicinity were uprooted. At Fort Littleton the storm was so violent as to blow down the barn of Mr. John Walker, residing 7½ miles South of that place. A portion of the roof was carried a considerable distance. Mr. John M'Geary, a wool dealer who was stopping with Mr. W., had two fine very horses in the stable at the time. Some of the large timbers fell on the best horse, killing him instantly.

WASHINGTON.—On Friday evening last, Mr. Daniel Miley, residing about half a mile from Clearspring, was instantly killed by lightning, while standing in the door of his residence.—The store of J. H. Blake, in Hagerstown, was robbed of goods to amount of $20; and an attempt made to enter the store of S. M. Bloom on the same night.

YORK.—W. H. Snyder has been appointed Postmaster at Logansville.—A German, named Valentine Cook, aged 40 years, was found dead lying in a gutter in Hanover, on the morning of the 29th ult. He was very intemperate had quarelled with his wife and left the house during the previous night. He probably fell in the gutter, and being too much intoxicated to help himself, was drowned or smothered in the filth.—On Sunday night, the 23d, ult., David M. Hoke's barn, near Stovertown, North Codorus, was set on fire and destroyed.—On Tuesday of last week Robert J. Fisher (son of Judge Fisher) was admitted to practice as an attorney in the several Courts of York county, on a certificate from the Supreme Court of the State of New York.—A severe hail storm passed over York on the evening of the 31st ult., the hail in some places being as large as a walnut.—The Public Schools in York hereafter will be kept open 10 months.—Albert A. Boyd, a brakeman, on one of the freight trains on the Northern Central Railroad, was instantly killed, at the bridge beyond Hyde's, about three miles south of this borough, on Monday the 31st ult. He was standing on the top of a car, loaded with lumber, and as the train passed under the bridge, his head came in contact with the top timbers and he was instantly killed.—Mr. Solomon Bushey, who resides near Wellsville, was seriously injured by a mule on Saturday 29th ult. He was working several of the animals and one of the number not being properly broken, became unmanageable, and threw Mr. Bushey upon the ground and tramped upon his head, breaking in his skull to such a degree as to expose the brain. Poor hopes of his recovery are entertained.—On the 1st inst., John McIlvain, four or five years old, and son of William McIlvain, climbed on a cart in South George street, York, and after riding a short distance, fell to the ground, broke his back, and was otherwise injured.—Mr. Howe, of Hanover, while passing through a strip of woods, on Sunday morning, on the banks of Oil Creek, was suddenly confronted by a large blacksnake, which at once commenced an attack. Mr. Howe retreated towards the creek, the snake closely pressing him, and upon reaching the stream he succeeded in obtaining a club with which he dealt the snake a blow, which laid it lifeless at his feet. The reptile was of the species known as the Black Viper, and over six feet in length.—On Friday night last $20 were stolen from the dwelling of Mrs. Beard, Hanover, and about $13 worth of harness from the shop of J. W. Keller.—On the 31st ult., the barn of Mrs. Craley, Chanceford township, was struck by lightning and destroyed with contents.

A CLOCK which has just been completed for the Cathedral of Beauvais contains 90,000 wheels, and indicates, among many other things, the days of the week, the month, the year, the signs of the zodiac, the equation of time, the course of the planets, the phases of the moon, and the time at every capital in the world, the movable feasts for one hundred years, the saints' days, &c. Perhaps the most curious part of the mechanism is that which gives the additional day in leap year, and which, consequently, is called into action only once in four years. The clock is wound up every eight days. The main dial is twelve feet in diameter, and the total cost exceeds $40,000.

GREAT OAKS FROM LITTLE ACORNS.—Ten years ago, two little acorns—only $2500 each—were planted at the corner of Sixth and Market Streets. Untiring industry, enterprise and honesty cultivated and developed them and to-day the great Oak Hall with its thousands of customers and more than a million of dollars of yearly business is the outgrowth of such small beginings. The branches of this "Oak" are far-spreading and shady. Men from all parts of the State find protection and refreshment under it and all share with the proprietors the numberless little acorns of profit and advantage that grow upon it now. It

A GREAT POLITICAL REVOLUTION

was accomplished by the election of Grant, and a revolution of immense social importance has been effected by the general substitution of that pure and harmless preparation,

CRISTADORO'S EXCELSIOR HAIR DYE,

for the deadly compound of lead and brimstone, of which, according to the "Journal of Chemistry" and the "Medical Gazette," more than thirty varieties have been foisted upon the public! Cristadoro's Dye is the only one that

"A WORD TO HORSEMEN."

DR. TOBIAS' CELEBRATED VENETIAN HORSE LINIMENT has been tested by the first Horsemen in this country, and proved to be superior to any other. The late Hiram Woodruff, of "trotting fame," was never without a bottle in his stable. It is also used by Col. Bush, of the Jerome Park Course, at Fordham, N. Y., who has over twenty running horses under his care, among which rank some of the finest stock in America. It is warranted to cure Lameness, Sprains, Scratches, Bruises, Galls, Cuts, Wind Galls, Colic, Sore Throat, Nail in the Foot, and Over Heating, when used according to the directions.

All who own or employ Horses are assured that this Liniment will do all, if not more, in curing the above named complaints. No horse need die of Colic, if, when first taken, the Liniment is used according to the directions. Always have a bottle in your stable.

Price, in Pint bottles, One Dollar. The genuine is signed S. I. Tobias on the outside wrapper. For sale by the Druggists, Saddlers, and Storekeepers throughout the United States. Depot, 10 Park Place, New York. [June 11—1m

IMPORTANT FACT.

We see that persons of strong constitutions, and young, suffer for days with pains of the limbs, loss of appetite and fever, who suddenly get well after a cholic followed by slimy, bilous stools. The relief produced by those evacuations were the original guide to the idea and practice of purgation, and which, when enforced by Brandreth's Pills, always benefits, usually cures, and often prevents disease, especially Scarlet Fever and diseases of similar character.

I. L. Cook, publisher of the "State Banner," Bennington, Vt., says Brandreth's Pills cured him of Dyspepsia, after being afflicted with it over five years. His friends and doctors considered his recovery impossible; but six boxes of Brandreth's Pills restored his health perfecty.

A young lady of Mount Pleasant was sorely troubled with Tape-worm. All advice and medicine failed to help her. She had no rest. Thin, careworn and unhappy, she looked the picture of misery. At last she concluded to try Brandreth's Pills. In one year she took seventy-two boxes. They brought away, according to her computation, over two hundred yards of tape-worm. At length all her bad symptoms left her; she slept and ate naturally, and her health became fully restored. [June 11—1m

A GREAT REMEDY

FOR THE CURE OF

THROAT AND LUNG DISEASES.

Dr. Wishart's Pine Tree Tar Cordial.

It is the vital principle of the Pine Tree, obtained by a peculiar progress in the distillation of the tar, by which its highest medical properties are retained.

It is the only safeguard and reliable remedy which has ever been prepared from the juice of the Pine Tree.

It invigorates the digestive organs and restores the appetite.

It strengthens the debilitated system.

It purifies and enriches the blood, and expels from the system the corruption which scrofula breeds on the lungs.

It dissolves the mucus or phlegm which stops the air-passages of the lungs.

Its healing principle acts upon the irritated surface of the lungs and throat, penetrating to each diseased part, relieving pain and subduing inflammation.

It is the result of years of study and experiment, and it is offered to the afflicted, with the positive assurance of its power to cure the following diseases, if the patient has not too long delayed a resort to the means of cure:—

Consumption of the Lungs, Cough, Sore Throat and Breast, Bronchitis, Liver Complaint, Blind and Bleeding Piles, Asthma, Whooping Cough, Diptheria, &c.

We are often asked why are not other remedies in the market for Consumption, Coughs, Colds, and other Pulmonary affections equal to Dr. L. Q. Wishart's Pine Tree Tar Cordial. We answer—

1st. It cures, not by stopping cough, but by loosening and assisting nature to throw off the unhealthy matter collected about the throat and bronchial tubes, causing irritation and cough.

2nd. Most Throat and Lung Remedies are composed of anodynes, which allay the cough for awhile, but by their constringing effects, the fibres become hardened, and the unhealthy fluids coagulate and are retained in the system, causing disease beyond the control of our most eminent physicians.

3rd. The Pine Tree Tar Cordial, with its assistants, are preferable, because they remove the cause of irritation of the mucous membrane, and bronchial tubes, assist the lungs to act and throw off the unhealthy secretions, and purify the blood, thus scientifically making the cure perfect.

Dr. Wishart has on file at his office hundreds and thousands of Certificates, from Men and Women of unquestionable character who were once hopelessly given up to die, but through the Providence of God were completely restored to health by the Pine Tree Tar Cordial. A Physician in attendance who can be consulted in person or by mail, free of charge. Price of Pine Tree Tar Cordial $1.50 per bottle, $12 per doz. Sent by Express on receipt of price. Address "L. Q. C. Wishart, M. D. 232 North 2d street, Philadelphia." [April 23, 1869—1y

MARSHALL'S ELIXIR.

Headache—Dyspepsia—Costiveness.

If you suffer with Headache try MARSHALL'S ELIXIR, and be convinced that although other remedies have failed to cure you, this will give you instant and permanent relief.

If by over-excitement and fatigue your nerves have become so weakened that Headache admonishes you something more dangerous may happen, such as

PALSY, DIMNESS OF SIGHT,

and other alarming nervous affections, then Marshall's Elixir, by giving tone and strength to your system, restores you to perfect health.

THE KIDNEYS.—THE KIDNEYS ARE TWO in number, situated at the upper part of the loin, surrounded by fat, and consisting of three parts, viz: the Anterior, the Interior, and the Exterior.

The anterior absorbs. Interior consists of tissues or veins, which serve as a deposit for the urine and convey it to the exterior. The exterior is a conductor also, terminating in a single tube, and called the Ureter. The ureters are connected with the bladder.

The bladder is composed of various coverings or tissues, divided into parts, viz: the Upper, the Lower, the Nervous, and the Mucous. The upper expels, the lower retains. Many have a desire to urinate without the ability; others urinate without the ability to retain. This frequently occurs in children.

To cure these affections, we must bring into action the muscles, which are engaged in their various functions. If they are neglected, Gravel or Dropsy may ensue.

The reader must also be made aware, that however slight may be the attack, it is sure to affect the bodily health and mental powers, as our flesh and blood are supported from these sources.

GOUT, OR RHEUMATISM.—Pain occurring in the loins is indicative of the above diseases. They occur in persons disposed to acid stomach and chalky concretions.

THE GRAVEL.—The gravel ensues from neglect or improper treatment of the kidneys. These organs being weak, the water is not expelled from the bladder, but allowed to remain; it becomes feverish, and sediment forms. It is from this deposit that the stone is formed, and gravel ensues.

DROPSY is a collection of water in some parts of the body, and bears different names, according to the parts affected, viz: when generally diffused over the body, it is called Anasarca; when of the abdomen, Ascites; when of the chest, Hydrothorax.

TREATMENT.—Helmbold's highly concentrated compound Extract Buchu is decidely one of the best remedies for diseases of the bladder, kidneys, gravel, dropsical swellings, rheumatism, and gouty affections. Under this head we have arranged Dysuria, or difficulty and pain in passing water, scanty secretion, or small and frequent discharges of water; Strangury, or stopping of water; Hematuria, or bloody urine; Gout and Rheumatism of the kidneys, without any change in quantity, but increase of color, or dark water. It was always highly recommended by the late Dr. Physick, in these affections.

This medicine increases the power of digestion, and excites the absorbents into healthy exercise, by which the watery, or calcareous, depositions, and all unnatural enlargements, as well as pain and inflammation, are reduced, and it is taken by men, women, and children. Directions for use and diet accompany.

PHILADELPHIA, PA., Feb. 25, 1867.

H. T. HELMBOLD, Druggist:

DEAR SIR—I have been a sufferer, for upward of twenty years, with gravel, bladder, and kidney affections, during which time I have used various medicinal preparations, and been under the treatment of the most eminent physicians, experiencing but little relief.

Having seen your preparations extensively advertised, I consulted with my family physician in regard to using your Extract Buchu.

I did this because I had used all kinds of advertised remedies, and had found them worthless, and some quite injurious; in fact, I despaired of ever getting well, and determined to use no remedies hereafter unless I knew of the ingredients. It was this that prompted me to use your remedy. As you advertised that it was composed of buchu, cubebs, and juniper berries, it occurred to me and my physician as an excellent combination, and, with his advice, after an examination of the article, and consulting again with the druggist, I concluded to try it. I commenced its use about eight months ago, at which time I was confined to my room. From the first bottle I was astonished and gratified at the beneficial effect, and after using it three weeks, was able to walk out. I felt much like writing you a full statement of my case at that time, but thought my improvement might only be temporary, and therefore concluded to defer and see if it would effect a perfect cure, knowing then it would be of greater value to you, and more satisfactory to me.

I am now able to report that a cure is effected after using the remedy for five months.

I have not used any now for three months, and feel as well in all respects as I ever did.

Your Buchu being devoid of any unpleasant taste and odor, a nice tonic and invigorator of the system, I do not mean to be without it whenever occasion may require its use in such affections.

SPECIAL NOTICE.

SCHENCK'S PULMONIC SYRUP,

Seaweed Tonic and Mandrake Pills, will cure Consumption, Liver Complaint, and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver, and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well. This is the only way to cure consumption.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of pulmonary consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe, a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall-bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care), that will unlock the gall-bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills, or fever. Remove the cause, and they will all stop of their own accord.—No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, either tubercles, abscesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

When there is no lung disease, and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient without the Pulmonic Syrup. Take the Mandrake Pills freely in all billious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success. Full directions accompanying each, make it not absolutely necessary to personally see Dr. Schenck, unless the patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed.—He is also professionally at No. 32 Bond street, New York, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half-dozen. Mandrake Pills 25 cents a box. For sale by all druggists.

THE WORLD,

DODGES' OHIO AND BUCKEYE

Reapers and Mowers.

A careful examination of these machines will commence any one of their superior merits over all others, in strength, durability, ease of draft, and reliability for work, on all kinds of ground, and in every variety of grass and grain. Confident of this we invite those in want of a good machine to examine for themselves before purchasing elsewhere.

These machines can be sold as Naked Mowers—REAPERS as Hand Rake, Self-Rake, or Dropper.—Two different sizes: No. 1 Machine, with two cutter Bars and three Knives, cutting five and a half feet in grain and four feet eight inches in grass; No. 2, cutting four feet six inches.

We have that confidence in these machines that we are willing to let those wanting a machine test them with any other they may wish, and keep the one that gives most satisfaction. DODGES' AUTOMAN SELF-RAKE has given such general satisfaction that we consider it the best Self-Rake out, and is attached to no other machine except the Dodge Machine, the Ohio and Buckeye patent.

For the benefit of those wanting machines we would refer them to a few of those to whom we have sold the last season, viz:

GET THE BEST!

NISHWITZ'S IMPROVED MOWER AND REAPER.

The strongest, lightest draft, most compact, simple and perfect Machine ever offered to the public.

The undersigned having taken the Agency for Nishwitz's Celebrated Improved Mower and Reaper, invites the attention of the Farmers of Adams county to it, as the very best machine now in market. Its general construction, embracing every necessary point to constitute a perfect machine, is so simple that the most inexperienced person can readily understand it. It consists of a less number of bolts, pieces and parts than any other machine, and is better adapted to all kinds of Reaping and Mowing. A thorough examination and trial will show this beyond all doubt. Farmers desiring to purchase a first class machine, at low price, will do well to call and examine it. Price $125; Reaper Attachment $35.

ALSO—THE

Cucumber Wood Pump,

for Wells, Cisterns, &c.,—the best in market—and the stock being made of cucumber wood the taste of the water is not affected.

Persons desiring to see the Mower and Reaper, or Pump, can do so by calling at Cress' Warehouse, Gettysburg; Hersh's Warehouse, New Oxford, or at the residence of the subscriber in New Salem.

STILL AHEAD!

HOFFHEINS'

REAPER & MOWER,

One of the Greatest Machines of the Age,

IS superior to any other Machine now in use, and will excel any that will ever be introduced, having been thoroughly tried and given general satisfaction. I would now inform all those who intend purchasing Machines to call and examine for themselves. This Machine is noted particularly to excel all other machines in strength, durability, ease of draft, and reliability for work, in all kinds of grass and grain. It cuts lodged grain admirably, which is a great item in Machines to a farmer. It can be used as a hand rake as well as a self-raker. It cuts 5 feet 2 inches in grain; 4 feet 10 inches in grass; has a steel cutter bar, with wrought iron guards; it can be used as a Single Mower as well as a Combined Machine.

A full trial of the Machine can be had.

Also, SHIREMAN'S SELF-DISCHARGING HORSE RAKE, and the great and well-known BRANT RAKE, the best rakes ever introduced. We would also call your attention to the IRON DOUBLE SHOVEL PLOUGH, wrought iron frame, very light and strong, steel shovels, easily adjusted to run shallow or deep, and is neatly and tastefully made.

ALSO, THE KEELER AND EXCELSIOR FANNING MILL, the old Hamborough Fan improved, for many years a great favorite among the farmers of Pennsylvania. It is large and strong, has two cockle screens, and warranted to work perfectly.

Also all kinds of FARMING IMPLEMENTS always on hand.

Any person wishing to examine these machines can see them at the Battle-field Hotel or at my residence, 3 miles from Gettysburg, between the Taneytown road and the Baltimore pike.

THE WORLD,

odges' Ohio and Buckeye

Reapers and Mowers.

A careful examination of these machines will convince any one of their superior merits over all others, in strength, durability, ease of draft, and reliability for work, on all kinds of ground, and in every variety of grass and grain. Confident of this we invite those in want of a good machine to examine for themselves before purchasing elsewhere.

These machines can be sold as Naked Mowers—Reapers as Hand Rake, Self-Rake, or Dropper.—Two different sizes: No. 1 Machine, with two cutter bars and three Knives, cutting five and a half feet in grain and four feet eight inches in grass; No. 2, cutting four feet six inches.

We have that confidence in these machines that we are willing to let those wanting a machine test them with any other they may wish, and keep the one that gives most satisfaction. Dodges' Automan Self-Rake has given such general satisfaction that we consider it the best Self-Rake cut, and is attached to no other machine except the Dodge Machine, the Ohio and Buckeye patent.

For the benefit of those wanting machines we would refer them to a few of those to whom we have sold the last season, viz:

BRIDGE PROPOSALS.—The County Companions invite proposals until the 30th inst., for the building of a Bride across Conowago creek, at Wierman's mill, on the road from Arendtsville to Middletown.

CLOSED.—The public will regret to learn that the "McClellan House," in this place, long and favorable known to the travelling public, has been temporarily closed, by reason of the bad health of the proprietor, GEORGE W. McCLELLAN, Esq.

STOCK SOLD.—Three hundred and ninety-five shares of the Wrightsville, York and Gettysburg Railroad stock were sold at the exchange in Philadelphia, on the 18th ult., for $17 50 per share. The principal part of the stock was purchased by residents of York county.

INSTALLED.—On last Sunday a week, Rev. M. J. ALLEMAN was installed as Pastor of St. Paul's Lutheran Church in Littlestown. Rev. Dr. BROWN, of this place, delivered the charge to the pastor, and Rev. Dr. HAUER, of Abbottstown, the charge to the congregation. The services were interesting and impressive.

ERROR.—Several weeks ago we copied a paragraph going the rounds of our exchanges to the effect that a law requiring borough and township officers to publish their account of receipts and expenditures in newspapers, was passed by the State Legislature. This is an error, as the law failed to pass the House.

FINE STRAWBERRIES.—Mr. C. H. DUSTMAN will accept our thanks for a box of very fine Strawberries, unusually large in size and flavor. Mr. D. has a fruit and nursery garden on Seminary ridge, has given special attention to the culture of Strawberries, and is prepared to supply families and fill orders at lowest market rates.

ORGANIZED.—The new School Board in this place organized on Tuesday evening by appointing Hiram Warren President, John F. McCreary Secretary, Dr. E. G. Fahnestock Treasurer, and James McCreary Collector. The Board will meet on the 18th of June to elect teachers, on which day Mr. Wert, the new County Superintendent, will examine applicants.

THE NEW HOTEL.—The mammoth Hotel at the Katalysine Spring is rapidly approaching completion, and will be in every respect a first class Hotel, capable of accommodating 300 guests. It occupies a commanding position, and from the cupola there is a magnificent view of nearly the entire battle-field. A committee are now in New York city purchasing the Furniture for the Hotel.

PIANOS.—We direct the attention of persons in want of a good Piano to the advertisement of Prof. BENTZ, of York, in to-day's paper. He has secured the sole Agency for the Pianos manufactured by Wm. Knabe & Co., of Baltimore, one of which was used at the recent Concert in Agricultural Hall. Prof. Bentz also deals in other standard Pianos and musical Instruments generally.

BOUNTY CLAIMS.—Despatches from Washington state that all of the bounty cases under the supplemental law of 1866, over 20,000 in number, have been transferred from the office of Paymaster-General to the Bureau of the Second Auditor of the Treasury, as provided by the act of last March. The Bureau of Referred Claims in the Pay Department has therefore been abolished. Hereafter no letters will be replied to until the claims they relate to are registered and regularly examined, and no information can be given concerning claims provided for in the act of March 3, 1869, until an opinion is received from the Attorney General, to whom the law has been referred.

ROBBED.—On Sunday night last the Jewelry store of Messrs. Soper and McCartney, on Chambersburg street, was entered by burglars through a back window, and robbed of breast-pins, ear-rings, and other jewelry to the value of about $20. On the same evening Mr. Faber's Tobacco store, next door, was broken open, probably by the same parties, and three boxes of segars taken.

On Monday night an attempt was made to enter the dwelling of Hon. Moses McClean, but the noise caused by forcing one of the back doors aroused some of the members of the family, and the villians decamped.

It would be well for citizens to take special care in securing their premises, in view of these frequent burglaries.

FREDERICK AND PENNSYLVANIA RAILROAD.—As stated in our columns last week, the entire line of the Frederick Pennsylvania Line Railroad is now under contract. The first ten sections have been awarded to M. McCabe of Altoona, Pa., seven sections to B. B. Gonder and Son, of Lancaster, Pa., and nine section to Samuel Smith, formerly of Pennsylvania, but now Taneytown. The Littlestown Railroad Company will build their two and a quarter miles lying within the State of Pennsylvania. The work has been let at low but reasonable rates, and not to the lowest bidders, yet lower than the estimate made by the Engineer, Col. Hayden. According to the terms of the contracts, the road is to be commenced on the 15th of June next, and completed by the 1st of May 1870.—*Frederick Republican.*

STORM AND FLOOD.—On Friday evening last a heavy storm passed over Gettysburg, accompanied by sharp thunder and lightning, and an unusual fall of rain. The rain commenced at about 5 o'clock, and poured down with scarcely an intermission until about 7½ o'clock. In these two hours and a half the fall of rain was so great as to sheet the streets with water, the gutters not having capacity to carry it off. The small run circling the north of the town, this side of the Seminary and College, rose rapidly, submerging the adjoining fields deep enough to swim a horse. The water flowed over the top of the bridges on the Bendersville and Mummasburg road, rending the roads impassable, sweeping away a part of the College walk, foot-logs, fences, &c. The streams continued to rise for an hour or more after the rain had ceased, and at 8 o'clock the large stone bridge over Rock Creek, on the York pike, was completely isolated, the water rushing across the pike above and below the bridge with a depth of from four to five feet. A great deal of damage has been done to fencing all along the line of the creek, nearly all being swept away on both sides, but we have heard of no loss of life. The flood on Rock creek was higher on Monday night than ever before known by the oldest residents—nothing equal to it having been seen, at least, during the last fifty years.

Willoughby's Run, about a mile west of town, was also higher than ever before known, and fencing, bridges, foot-logs, &c., were swept away by the force of the flood. The carriage bridge at the Katalysine Springs was carried several hundred yards down the stream; but the new bridge just below, built by the Passenger Railway Company, resisted the current, the abutments being somewhat injured and the dirt filling badly washed. Many of the ties along the line of the road, which were nearly ready to put in position, disappeared in the flood, some of them turning up in the neighborhood of Sandoe's mill.

The storm seems to have been confined to the central part of the county, covering Rock creek and Willoughby's Run—the clouds hovering over the town and emptying themselves upon the tributaries of these streams. There was no unusual fall of rain at a distance of four or five miles east or west of Gettysburg. But we had enough.

BORDER DAMAGES.—A meeting of citizens of the border counties who suffered losses during the war, met in Chambersburg on Monday last, Col. B. F. Winger presiding and S. W. Hays acting as Secretary.—We notice that Fulton and Cumberland counties had representatives, but we do not see that any Adams county names figure in the proceedings; from which we infer that our county was unrepresented. The claimants in Franklin county are moving systematically, and as our people are equally interested in the general subject matter, we give in full the resolutions adopted unanimously. They were reported by a committee consisting of Wm. C. M'Knight, Hon. C. M. Duncan, R. P. M'Farland, of Franklin county; Hon. Henry Ruby, of Cumberland county, and Dr. Duffield, of Fulton county:

WHEREAS, We the representatives of the citizens of the counties of Bedford, Fulton, Franklin, Adams, Cumberland, York and Perry, in Convention assembled, feeling the necessity of some concerted action in regard to the payment of the damages to and losses of property sustained in the counties aforesaid, by the raids and incursions of the rebels, and losses and damages sustained by the Union troops during the war:

And whereas, These losses and damages as aforesaid were duly, fairly and justly adjudicated by able, honest and efficient Commissioners, duly appointed in pursuance of the acts of Assembly; therefore

Resolved, That it is the unanimous opinion of this Convention, that it is just and right that the Legislature of the Commonwealth of Pennsylvania should pass a bill providing for the prompt payment of these claims, as adjudicated and filed in the office of the Auditor General of the State.

Resolved, That every sense of justice, equity and fair dealing between citizens of the same Commonwealth, should prompt the members of the State Legislature representing districts more favored by fortune, who suffered less by the calamities of the late war, to aid and espouse our cause, which i founded in justice and right, and in conformity with the obligations placed upon them by the Constitution of our State.

Resolved, That this Convention publicly proclaim its thanks to all the members of the Legislature who have interested themselves and sought justice, by their influence and votes, to their suffering fellow-citizens in the border counties.

Resolved, That this Convention respectfully request the newspapers of the State to give prominent publicity to the same.

Resolved, That when the Convention adjourns, it adjourns to meet on the 1st Monday in November next, at 10 o'clock in Chambersburg.

The Franklin county Executive Committee reported that $195.23 had been collected towards defraying the expenses of circulating petitions and for the furtherance of the movement. Sub-committees were appointed for each township in the county, charged with the duty of circulating petitions and collecting additional funds. The Convention was addressed by Col. F. S. Stumbaugh, Hon. C. M. Duncan, Hon. Henry Ruby, Wm. C. M'Knight, John R. Orr, George Chambers, George Smith, Col. B. F. Winger and S. W. Hays, and adjourned to meet again on the first Monday of November, as provided in the last resolution.

We have frequently urged the rightfulness of these claims and the duty of the State to meet them. If ever paid at all it must be by the State, and to secure this end it will not do for the parties interested to fold their arms in indifference or inaction. The Franklin county claimants understand this, and hence their action means work.—Let them be efficiently seconded by corresponding action in the other counties, and success may crown the effort. Unless the claimants wake up to the necessity of active, energetic, concerted work, they may as well abandon all hope of indemnity.—We hope by the November meeting to see a full delegation from Adams county.

EVERGREEN CEMETERY.—On Monday evening last the following gentlemen were unanimously elected officers of Evergreen Cemetery for the ensuing year:

President—J. L. Schick.

Managers—George Little, Wm. B. Meals, John Rupp, Dr. J. L. Hill, Alex. Cobean, Josiah Benner, George Spangler.

The annual report gives the following exhibit of the financial condition of the association:

STRAWBERRY FESTIVAL.—The weather during the past week was very unpropitious for the Presbyterian festival, being cold and chilly. We understand that about $250 were realized, from which expenses are to be deducted.

Our readers will bear in mind that the ladies of the Methodist Episcopal Church will also give a Strawberry and Ice Cream festival in Agricultural Hall, on Thursday and Friday next, for the benefit of the Memorial Church. We are requested to state that the Ice Cream will be furnished by Mr. GRUEL, of this place, and will be of the best quality.

DICKINSON COLLEGE.—The Commencement exercises of this institution will take place on the 24th of June, preceded by the usual Orations, Addresses, &c., before the Societies. The graduating class numbers 22, among them W. S. Morrison, of Bendersville, this county.

PROLIFIC.—Samuel Hartzel, of Cumberland township, has a Ewe which gave birth to twin Lambs last December, and in the month of May gave birth to twins again. Mr. Hartzell has 9 Ewes and 18 Lambs.

TALL RYE.—We have seen two stalks of Rye, cut on Saturday last from the farm of Mr. John Irvin in Buchanan Valley, one of which measures seven feet and seven inches in length, and one seven feet five inches. They are the largest of the season, and can be seen at the STAR AND SENTINEL office.

ZOUAVES.—The Franklin Zouaves will meet in Gettysburg on Wednesday the 30th inst., at 5 o'clock, P. M., prepared to go into camp over night, and to participate in the ceremonies of July 1.

A GOOD CHANCE.—Persons in want of a desirable residence in Gettysburg, centrally located, in thorough repair, with convenience of gas, water, garden, &c., have a capital opportunity of securing it, in the three-story Brick Dwelling on Baltimore street, opposite the Post-office, occupied by Messrs. Fahnestock, O'Neal and Duncan, and which is now offered for sale. It is in every respect a most desirable residence, and the opportunity is not met with every day. See adv.

GAGAN'S MAGNOLIA BALM.—This article is the True Secret of Beauty. It is what fashionable Ladies, Actresses, and Opera Singers use to produce that cultivated, *distingue* appearance so much admired in the Circles of Fashion.

It removes all unsightly Blotches, Redness, Freckles, Tan, Sunburn and Effects of Spring Winds, and gives to the Complexion a Blooming Purity of transparent delicacy and power. No lady who values a Complexion can do without the Magnolia Balm. 75 cents will buy it of any of our respectable dealers.

INFORMATION WANTED.

MESSRS EDITORS:—There is a great deal of suppressed indignation still prevalent in this community, at the infamous order excluding the African Sabbath School from participating with others in the ceremonies of decorating the Soldiers' graves. This order you have strongly and justly denounced in your last paper. You exculpate Capt. Hunter from all blame in the matter; and state that you have been unable to find any one willing to assume the responsibilty of issuing the order.

But as Marshal he must certainly know who it was that arranged the programme for the procession and other exercises and gave the order to exclude the African School. And we hereby, in the name of all patriotic citizens, call upon him for the authority for this unpatriotic, unchristian, and disgraceful display of negrophobia.

The public do not care to know who may *now* be willing to assume the responsibility; as it is quite natural that those who authorized it should try to screen themselves from the contempt of an indignant community, by shirking all responsibility. The public desire to know by whom, from whom, and through whom the order of exclusion was decided. When they know this, they will have no difficulty in placing the "responsibility" where it properly belongs.

The order was a disgrace to Gettysburg—and this is felt deeply, with indignation and shame, not only by patriotic citizens here, but throughout the nation, wherever the infamy is known. It was not only an outrage upon the Sabbath School excluded; but upon the patriotism and Christianity of our country—upon the design of the day itself, and upon the cause for which the very soldiers died whose graves were decorated by the orphans they have left us to cherish, and to remined us that "God is no respecter of persons," and "has made of one blood all nations of men, to dwell on all the face of the earth."

BOOK NOTICES.

THE NURSERY.—The Nursery is the title of a lively little magazine, published in the interests of boys and girls. The June number is full of good things. It is published by John L. Shorey, 13 Washington street, Boston.

HEARTH AND HOME.—This is the name of one of the best weeklies on our exchange list. It is prevaded by a pure and wholesome spirit, which makes it peculiarly suitable for family reading.—It treats upon all kinds of domestic and agricultural matters, and is replete with valuable information to the house-keeper and farmer. In the next number a fine story full of interest, by Mrs. Edson, to be entitled "Marrying Well," will be commenced. It will be illustrated by Stephens and Perkins.

☞ The Illustrated Phrenological Journal for June, contains Portraits and Characters of James Harper; Sir John Young, Governor General of Canada; Richard G. Pardee; R. A. Murray, the accountant; The Planchette Mystery; Quaker Music; Natives of Alaska, portraits; Great Men-Small Heads; Where are the housekeepers? Principles in Physiology—Digestion; Should Consumptives Marry? Obedience—its importance; Enduring or Enjoying Life; John Folgate the Centenarian; Face Fancies; What can I do best? The Woman Qustions; Music; Answers to correspondents, etc. End of Volume 49; New Volume begins with the number. Only 30 cents, or $3 a year. Address S. R. Wells, 389 Broadway, New York.

☞ Grace Greenwood has sold her "*Little Pilgrim*" to Alfred L. Sewell & Co., Publishers of "THE LITTLE CORPORAL," of Chicago. *The Little Pilgrim* has been published as a children's magazine for over fifteen years, and has been a popular juvenile, but will now stop "pilgrimaging" on his own account, and hereafter be an "aide" to the conquering Western Napoleon, THE LITTLE CORPORAL, the well deserved circulation of which was even before this addition larger than that of any other juvenile magazine in the world. Grace Greenwood still writes for it. The July number begins a new volume, and we advise our friends to send on to the publishers, *at once*, one dollar, which is the price for one year, and give their children this unique, original magazine, which has no superior anywhere. Those who subscribe during June, will receive the June number extra. Address Alfred L. Sewell & Co., Chicago Ill., No. 6 Post office place.

☞ Mr. Stephens opens the June "Riverside" with another of his droll Mother Goose pictures, illustrating the ditty "The Fox and his Wife, they had a great Strife." As if in peaceful contrast, the opening article of the number is "First School-days of a little Quaker," which promises to be a bright story for girls. History is provided in a sketch of "Joan of Arc," by George M. Towle. Mr. Jacob Abbott explains "Joule's Equivalent." Paul H. Hayne, the Poet, tells a lively story in prose of "Robby Singleton's Mishap;" the "Rambles in Constantinople" are continued, as also the Hunting Sketches in South Africa; while there is another New Testament story, this time of the "Marriage Feast at Cana," and Hans Anderson tells a fresh story of "The Comet," which has a very graceful picture by M. L. Stone. To know the rest get the Magizine itself. Hurd and Houghton, New York, Publishers. $2.50 a year.

INFORMATION WANTED.—Of the grave of Lt. Col. HANCE, 53d Geo. Infantry, McLaw's Division, Longstreet's Corps, killed at the battle of Gettysburg, July 2d, 1863, and said to have been buried "at a Brick House, about 2 miles from Gettysburg, near the corner of the garden and near a large apple or cherry tree, on the Cashtown road. A large rocky spring is said to be near said house." Address Dr. O'NEAL, Gettysburg. 1t

IMPROVED MORNING GLORY.—The famous Morning Glory Stove, so popular as a parlor and office stove, has sometimes been objected to for use in chambers and by families needing but one fire, because not adapted to heat water, &c.—This difficulty has been overcome, and last Monday we saw one of the improved Morning Glories in operation at the Wareroom of Col. C. H. BUEHLER, on Carlisle street, which seems not only to obviate objections but to meet every desired want. It is nothing more or less than the ordinary Morning Glory, with an Oven about 15 inches in diameter attached, and ingeniously arranged dampers by which the heat can be thrown around the oven at pleasure, and making it as hot as the ovens of the best cooking stoves. Water can be boiled, pies baked, and even meat roasted as readily as in a cooking stove. This contrivance, while preserving all the qualities of the Morning Glory as a heater, adapts it for the sick chamber, or use in small families requiring but little cooking. tf

LUMBER.—The attention of Carpenters and Builders is invited to the extensive assortment of Lumber of all kinds to be found at the Lumber Yard of Col. C. H. Buehler, on Carlisle street, opposite the Passenger Depot. River and Mountain Pine, Hemlock, Laths, Siding, Joice, Scantling, Shingles, Pickets, Flooring, Posts, &c. &c., furnished in any quantity and at lowest rates. tf

GROVER & BAKER'S

FIRST PREMIUM

ELASTIC STITCH

FAMILY

SEWING MACHINES,

495 *Broadway, New York.*

730 *Chestnut street, Philadelphia.*

POINTS OF EXCELLENCE.

Beauty and Elasticity of Stitch.
Perfection and Simplicity of Machinery.
Using both threads directly from the spools.
No fastening of seams by hand and no waste of thread.
Wide range of application without change of adjustment.
The seam retains its beauty and firmness after washing and ironing.
Besides doing all kinds of work done by other Sewing Machines, these Machines execute the most beautiful and permanent Embroidery and ornamental work.

☞ The Highest Premiums at all the fairs and exhibitions of the United States and Europe, have been awarded the Grover & Baker Sewing Machines, and the work done by them, wherever exhibited in competition.

☞ The very highest prize, THE CROSS OF THE LEGION OF HONOR, was conferred on the representative of the Grover & Baker Sewing Machines, at the Exposition Universelle, Paris, 1867, thus attesting their great superiority over all other Sewing Machines.

WM. KNABE & CO.,

MANUFACTURERS OF

GRAND, SQUARE AND UPRIGHT

PIANO FORTES,

BALTIMORE, MD.

These instruments have been before the Public for nearly Thirty Years, and upon their excellence alone attained an *unpurchased pre eminence*, which pronounces them unequaled. Their

TONE

combines great-power, sweetness and fine singing quality, as well as great purity of Intonation, and evenness throughout the entire scale. Their

TOUCH

is pliant and elastic, and entirely free from the stiffness found in so many Pianos. In

WORKMANSHIP

they are unexcelled. Using none but the very best *seasoned material*, the large capital employed in our business enables us to keep continually an immense stock of lumber, &c., on hand.

☞ Our SQUARE PIANOS have our New Improved Overstrung Scale and the AGRAFFE TREBLE.

We would call special attention to our late improvements in

GRAND PIANOS AND SQUARE GRANDS,
Patented August 14, 1866,

Which bring the Piano nearer perfection than has yet been attained.

Every Piano fully Warranted for Five Years.

☞ P. BENTZ, York, Pa., Sole Agent for the above celebrated instruments, is by special arrangements enabled to furnish them at the Very lowest factory prices.

To Bridge Builders.

SEALED PROPOSALS will be received at the office of the Commissioners of Adams county, *until the 30th day of June inst.*, for building a WOODEN BRIDGE across Conowago Creek, at Alfred Wierman's Mill, on the road leading from Arendtsville to Middletown. The bridge is to be seventy six feet from abutment to abutment, two spans, with a pier in the centre, and to be built on the Railroad plan, similar to the one across Rock Creek at Josiah Benner's.

Best white oak lumber only to be used. The stone can be had within a mile and a half of the Bridge.

Plans and specifications can be seen by persons wishing to bid on the day of letting, or on application to J. M. WALTER, Clerk to Commissioners.

BE CAREFUL WHAT MEDICINES YOU TAKE.

WHEN you are exhausted by over-work of head or hand, and feel the need of something invigorating, don't drink whiskey nor any intoxicating thing, whether under the name of Bitters or otherwise. Such articles give just as much strength to your weary body and mind as the whip gives to the jaded horse, and no more. Alcoholic stimulants are injurious to Nerve-health, and are ALWAYS followed by DEPRESSING REACTION.

DODD'S NERVINE & INVIGORATOR

is a TONIC and GENTLE STIMULANT which is NOT attended by REACTION. What it gains for you it maintains. When it refreshes body or mind, it refreshes with natural strength that comes to stay.—We are not recommending teetotalism in the interest of any faction; but long and extended observation teaches us that he who resorts to the bottle for rest or recuperation, will find, as he keeps at it, that he is kindling a fire in his bones which will consume like the flames of perdition. Turn from it. Take a tonic that will refresh and not destroy. Dodd's Nervine is for sale by all Druggists. Price One Dollar. See book of Certificates that accompanies each bottle.

COLBURN'S PATENT

RED JACKET AXE

Is better than our regular shaped Axes for these reasons: *First*—It cuts deeper. *Second*—It don't stick in the wood. *Third*—It does not jar the hand—*Fourth*—No time is wasted in taking the Axe out of the cut. *Fifth*—With the same labor you will do one-third more work than with regular Axes. Red paint has nothing to do with the good qualities of this Axe, for all our Axes are painted red. If your hardware store does not keep our goods, we will gladly answer inquiries or fill your orders direct, or give you the name of the nearest dealer who keeps our Axes.

Gettysburg, Friday, June 11, 1869.

Cause of Apple Trees Dying.—Mr. Murray, writing to the Farmers' Club of the American Institute, on the "Cause of Apple Trees Dying," says, that in Southern Ohio, where he was raised, he has known his father, eighteen or twenty years ago, to gather as much as forty bushels of apples from a single tree, and these of the most excellent varieties. In the same region it now takes about forty trees to produce one bushel. Apples began to decline in that locality about 1850. In his father's orchard the progress of the disease was quite marked. Bitter rot appeared, and the apples dropped off prematurely. The disease spred until finally the whole orchard became affected. His father hauled muck and put it round the trees, and straw and leaves. He manured, mulched and pruned, all to no purpose. The trees sickened and died. In his opinion, the death of the trees was caused solely by climatic changes.

When large crops of apples were raised in that locality, there were swamps and ponds near; the country had been but slightly cleared; the air was damp and humid; there were dense fogs and heavy dews.—The same influence which produced rich, juicy fruit, likewise caused ague and intermitted fevers. A good fruit year was always a fever and ague year. By and by the country was cleared up and the ponds were drained; fogs and dews were rare, and droughts frequent; the ague disappeared but the apples grew sick. They could not do without moisure. Apples are almost as choice of their locality as grapes. In a timbered country, well watered and not too far north, they will bear immense crops with scarce any attention. In other places they may do fairly, but in a dry climate they cannot succeed.

How to Make Prime Butter.—A great many intelligent people inquire with no little solicitude, when they see the immense quantities of butter in the New York and other markets, why it is that some plain and simple rule, which everybody can derstand and adopt, cannot be laid down for making butter. There can be such a rule. There is such a rule. And every person who follows it is sure to bring out prime butter. The rule is as simple, and may be adopted as readily as a rule for making cake or pies. Here it is. Observe it in all its details and you will be certain of firstrate butter. If the milk is churned, see that every dish and vessel that contains milk is clean and sweet. About 58° to 60° Fahrenheit is the proper temperature for either milk or cream, when the churning is commenced. Put no water in the milk or cream. If milk is allowed to stand until the cream rises, the pans must be set in a a clean and airy room of a uniform temperature, and free from all disagreeable odor. Then the churning must be performed before the cream has become at all rancid, or else it is injured by standing for nearly a week in a warm place. As soon as the butter is churned, it should be worked and salted. Everything round about the cream and butter should be as clean and sweet as the Spring breezes from the green hills. The next day the butter may be worked a little and salted with one ounce of fine clean salt per pound of butter, soon after which the butter should be packed. If proper cleanliness be observed the butter will be delicious. The miserable, filthy and sluttish manner of making butter is the means of glutting our markets with butter that respectable people cannot eat.

Overwork.—There was William Pitt, dead at 49, carrying the British Empire on his shoulders for a quarter of a century, and attempting to carry a pint of port wine daily and a pinch of opium in his stomach, and foundering in mid ocean from this over cargo. What a wreck was that when Brinsley Sheridan went to pieces on the breakers of intemperance and overwork! There, too, was Mirabeau, that prodigy of strength and health, of versatility and splendid talent, killed by the overwhelming labors and excitements of the tribune and the orgies of Cyprian hells. Sergeant S. Prentiss attempted the double task; and if ever a man might with impunity, he could, with leonine health and marvellous mental gifts.—Said a distinguished Mississippi lawyer to me, "Prentiss would sit up all night gambling and drinking, and then go into court next day and make a better plea in all respects than I could, or anybody else at the bar of our State, even though we studied our case half the night and slept the rest." He tried it, and in the trying burned to the socket in 41 years the lamp of life that had been trimmed to last fourscore. A draft upon the constitution in behalf of appetite is just as much a draft as in behalf of work; and if both are habitually preferred together, bankruptcy and ruin are sure and swift.

General Butler made the address at the decoration of the soldiers' graves at Gloucester, Massachusetts, and devoted a great portion of his remarks to a clear and concise summing up of the injuries which our country had received from England, the men and money that her hatred to our institutions had caused us to spend, and her aid to a slaveholders' rebellion. General Butler spoke of reparation as to be insisted on by the American people, and that it should be a lesson and precept that should be handed down from parent to child and never forgotten.

Justice in Texas is still very rapid, if not always certain. A black mare was stolen from a livery stable, and, after search, was heard from in a distant town. The proprietors sent a messenger after her, and a day or two afterwards received a despatch as follows: "Your mare is here; I will bring her; thief hung."

The *Hearth and Home* says that the first thing for a farmer to find out is what grows best on his soil. After he has learned this it thinks he should not be discouraged by low prices for a year or two.

The French have discovered that the white of an egg given in sweetened water is a sure cure for the croup. The remedy is to be repeated till a cure is effected.

Many persons destroy their window sash endeavoring to remove old putty. This may be avoided by applying a hot poker to the putty, which will then readily yield to the knife and leave the sash clean.

Cows which are coming in at this season of the year should be well protected, well fed, and looked after daily. A little neglect now have to be paid for at a high rate.

Josh Billings divides the human race into three classes: "Those who think it is so, those who think it isn't so, and those who don't care whether it is so or not."

Mr. James P. Boyd, for a year associate editor of the Philadelphia *Press*, has been promoted to one of the highest positions on the editorial staff of that journal.

Satan was but a young snake when he tempted our parents with apples. He is about six thousand years old now and more cunning in his means of temptation.

"**There**, now," exclaimed a little girl while rumaging in a bureau drawer—"grand-father has gone to heaven without his spectacles."

"**Have** you ever broken a horse? inquired a jockey." "No, not exactly, but I have broken two or three wagons."

A model surgical operation—to take the cheek out of a young man and the jaw out of a woman.

THE GREAT

ZINGARI BITTERS.

A SAFE BLOOD PURIFIER,
A SPLENDID TONIC,
A PLEASANT BEVERAGE.
A CERTAIN CURE
AND
PREVENTIVE OF DISEASES.

The ZINGARI BITTERS are compounded from a prescription of the celebrated Egyptian physician Dr. CHEOPSUS, who, after years of trial and experiment, discovered the *Zingarini Herb*—the most remarkable vegetable production, the earth, perhaps, has ever yielded—certainly the most effective in the cure of disease. It, in combination with the other valuable properties of which the ZINGARI BITTERS is composed, will cure

Dyspepsia, Fever and Ague, Bilious Fever, Cholic, Colds, Bronchitis, Consumption in its first stage, Flatulency, Nervous Debility, Female Complaints, Rheumatism, Dysentery, Acute and Chronic Diarrhœa, Cholera Morbus, Cholera, Typhoid and Typhus Fever, Yellow Fever, Scrofula, Diseases of the Kidneys, Habitual Costiveness, &c., &c.

In the PREVENTION and CURE of the above diseases, it has never been known to fail, as thousands of our most prominent citizens throughout all parts of the country will testify. Let the afflicted send for circular containing testimonials and certificates of those who have been cured after their cases have been pronounced hopeless by our best physicians.

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

THE GREAT

Invigorator and Restorer OF THE Vitality of the Stomach.

Prepared from Pure Vegetable Materials.

Pure Tonics and the most Pleasant Aromatics.

This invaluable Remedy for Dyspepsia and General Debility of the system is offered to the public, after a fair trial of its merits, with entire confidence that it will command their approval. It has been submitted, with the materials which compose it, to practising Physicians—among others to Dr. M. D. G. PFEIFFER, one of our oldest and most eminent Physicians, residing at New Oxford, who, after examination, pronounced it a Remedy which would *not fail* to show its salutary effects, when properly administered, in cases of Dyspepsia, springing from old age and debilitating effects of serious inward diseases—weakening, and at last destroying the nervous power of the stomach itself—and therefore entitling it to be emphatically called "The Great Invigorator."

Dr. W. J. McCLURE, another prominent Physician of New Oxford, thus gives his opinion:

NEW OXFORD, Dec. 30, 1868.

MR. JOHN BUSBEY.

Dear Sir:—At your request I have examined "The Great Invigorator," prepared by you, and the formula from which it is prepared. It is composed of some of the most powerful vegetable topics and most pleasant aromatics known to our profession, and I have no hesitancy in recommending it in Chronic cases of Dyspepsia, and in all cases of Indigestion resulting from debility of the Stomach. Believing that, if properly used, it will be of incalculable benefit to the suffering of our race, I subscribe myself,

Yours, very respectfully,
W. J. McCLURE, M. D.

AYER'S HAIR VIGOR

FOR THE RENOVATION OF THE

HAIR.

The Great Desideratum of the Age.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color and the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts longer on the hair, giving it a rich glossy lustre and a grateful perfume.

A SERVANT FOR ALL.

Roth's Improvement for Opening, Closing and Latching Gates,

MAY be attached to any gate and operated from buggy, team or saddle, by one hand, in any desired direction from the gate—opened and closed from one point, at any distance from the gate. This improvement is simple and cheap, yet perfect and strong; will not be disarranged by the sagging of the gate, nor by the frost raising the posts; may be made at a country blacksmith's, and easily attached to a gate. The undersigned, having the Right for Adams county, will sell Township and Farm Rights of this improvement.

Also, ROTH & SHANE'S AMERICAN LEVER GATE—which will be found valuable and convenient to all who have gates to drive through—as they remain by their team, open, close and latch a gate, without the necessity of getting in the wet or mud.
